Andersen and Susie Simkins, Director of Equalization, asked for clarification of SDCL 10-6-31.3 (3), which addresses platted ag land classifications. Andersen said the question comes from platting land that was classified as ag land; how roads or alleys relate to how the plat is filed with the Register of Deeds; and the intent of the use of the property. The Board agreed that agriculture status (except on home) will be retained. Melody Engebretson, Register of Deeds, spoke of the existing need to create a resolution to insure conformity with plats of new subdivisions, which has been discussed in the past.

Heidi McBride, First Interstate Bank, and Kelli Rhoe, Treasurer, met with the Board to discuss county funds; needed cash flow; return on investment; and the security of funds in money markets.

McBride informed the Board that there is no limit to the security of public funds, unlike individual funds, which are insured only to \$250,000.00.

Tom White asked the Board to consider adding a half-mile of road to the county road system, which is a section line road used by five landowners. White is asking for the addition to have assistance in graveling the road. As others have asked and been denied similar assistance, the Board expressed concern about setting a precedent. No action was taken.

Randy Seiler, Highway Superintendent, presented fuel transfers. Motion by Falkenburg, seconded by Abbott, to approve transfers to reimburse the Highway Department for fuel or work performed during the period of August 1-30, 2015 in the following amounts: the Sheriff's Office, \$2,158.23; DOE, \$191.63; Building, \$81.43; Emergency Management, \$123.91; Commission, \$29.00; and Weed Board, \$613.85. With no further discussion and all voting yes, the motion carried.

Seiler reported on FEMA work that has been done, which will total approximately \$190,000 in assistance to the county. A follow-up meeting is scheduled for Sept. 2, 2015. Also discussed were an estimated \$20,000 in needed repairs to a road grader, plus two mowers that required smaller repairs. Seiler provided updates on roads and maintenance.

Frank Maynard, Emergency Management, presented a list of electronic equipment to designate as junk. Motion by Abbott, seconded by Ortner, to approve designating as junk the list of electronics as provided, which is on file in the Auditor's Office. With no further discussion and all voting yes, the motion carried.

Motion by Falkenburg, seconded by Ortner, to approve travel for Maynard to attend an Emergency Management conference in Mitchell on Sept. 13-17, 2015. With no further discussion and all voting yes, the motion carried.

Maynard also discussed FEMA claims by county residents that require cultural and archeological study, which may delay the claim process. Motion by Falkenburg, seconded by Abbott, to approve an emergency letter to the congressional representatives, urging them not to delay claims due to the studies. With no further discussion and all voting yes, the motion carried.

Properties listed as being in flood plains were also discussed; Maynard is working on amendments to the flood plain designations to remove properties that should not be included.

Motion by Falkenburg, seconded by Ortner, to approve the bills as follows. With no further discussion and all voting yes, the motion carried.

With no further discussion and all voting yes, the motion carried.
