Sue:

I have attached an agreement for review and signature by an authorized representative of the Fall River County Commission. This is to give permission to the designee of the county to be able to interface with the information on the CSAP website. I believe this to be a formality as the commission had already granted permission to Andrea to have this access when I met with you earlier this year.

Since that meeting the website has experienced some technical difficulties and we are hopefully in the final stages of offering it back to the Counties' designees. The 2.0 version should be available soon and we are trying to get these details in order ahead of that full roll-out.

Thank you for your attention to this and I welcome any questions or concerns.
