

## **FALL RIVER COUNTY MINUTES OF FEBRUARY 5, 2019**

The Fall River Board of County Commissioners met in regular session on February 5, 2019. Present: Joe Allen, Joe Falkenburg, Paul Nabholz, Deb Russell and Sue Ganje, Auditor. Ann Abbott was absent.

The Pledge of Allegiance was given and the meeting called to order at 9:00 a.m.

The agenda was reviewed for conflicts; none were noted. ALL MOTIONS RECORDED IN THESE MINUTES WERE PASSED BY UNANIMOUS VOTE, UNLESS OTHERWISE STATED.

Motion made by Nabholz, seconded by Russell, to approve the agenda as written.

Motion made by Nabholz, seconded by Russell, to approve the minutes of January 8, 2019 and January 22, 2019.

Motion made by Nabholz, seconded by Russell to deny CP 2019-3, as the applicant requesting the assistance has income over the poverty guidelines.

Motion made by Russell, seconded by Nabholz, to surplus the Canon digital camera, battery pack and case from the Auditor's office as junk.

Abbott joined the meeting at 9:03 a.m.

Flight for Life Insurance was discussed. Recent information indicated that this plan may be phasing out, but people that were on the plan previously may stay on it. A further follow-up will be at the next meeting.

John McBride, Andersen Engineers, met with the board. Motion made by Allen, seconded by Nabholz, to approve the following resolution:

### **FALL RIVER COUNTY RESOLUTION #2019-5**

**A plat of Lot 9A, Lot 9B, and Lot 10R of Tract FL, NE1/4NE1/4 Section 33, T7S, R6E, BHM, Fall River County, South Dakota  
Containing all of Lot 9 and Lot 10 (Less Lot H1) of Tract FL**

WHEREAS, there has been presented to the County Commissioners of Fall River County, South Dakota, the within plat of the above described lands, and it appearing to this Board that the system of streets conforms to the system of streets of existing plats and section lines of the county; adequate provision is made for access to adjacent unplatted lands by public dedication or section line when physically accessible; all provisions of the county subdivision regulations have been complied with; all taxes and special assessments upon the property have been fully paid; and the plat and survey have been lawfully executed; now and therefore,

BE IT RESOLVED that said plat is hereby approved in all respects.

Dated this 5<sup>th</sup> day of February 2019.

Fall River County Auditor

/s/Joe Falkenburg  
Fall River County Board of Commissioners

Bob Evans, Sheriff, met with the board. Motion made by Nabholz, seconded by Russell, to change the classification of Daniel Leetch from a Jail Officer to a Sheriff Deputy – Un-certified, effective January 21, 2019.

Motion made by Russell, seconded by Nabholz, to approve hiring Domonic Valdez, Jail Officer, at \$12.50 per hour, effective February 4, 2019, as per union contract, at the Sheriff's discretion.

A short discussion was held on basic concealed carry permits changing to constitutional carry, legislation of which the governor has now signed.

Frank Maynard, Emergency Management, met with the board to advise that the county has been approved for the ITV 50/50 grant, which has a total cost of \$10,730.00. He noted the receipt of a check from the SD Unified Judicial System in the amount of \$5,365.00.

Maynard reported that he has contacted a representative for Code Red, an emergency phone notification system and is waiting for a response regarding costs, etc. Maynard also reported on fires and incidents.

Susie Hayes, Director of Equalization, met with the board, noting she had no tax abatements to present during this time, but presented the 2019 appeal process time frame. She will also be attending the local board meetings. Dates for the County Consolidated board meetings will be on the next agenda. Hayes advised the board that there will be a Housing meeting to be held on February 12, 2019 at the Mueller Center in Hot Springs at 5:00 p.m. Three commissioners noted possible attendance.

Stacey Martin, GIS Coordinator, met with the board, representing the department supervisors. Changes to the County Credit Card Use Policy; Travel policy and Suspension Without Pay or With Pay were presented. The board will review the policy changes and act at the next meeting.

Discussion was held on comments that were given on YouTube after the first commission meeting recording was posted. Comments that are derogatory towards individuals, imply racial slurs, or have cursing will not be allowed according to the policy that Fall River County recently implemented. If any items are deleted from YouTube, the board will receive a report. The policy is currently on the website.

Paul Nabholz, Commissioner and representative on the Custer/Fall River Landfill, advised of interviews and a possible replacement for Linda Mines, former secretary of the Custer/Fall River Landfill, and of a possible compactor proposed to go to that board for possible purchase. Nabholz also spoke of a letter that commissioners received regarding Dan Cullen, Veteran Service Officer, noting Cullen's outstanding service for Veterans. Nabholz also addressed the Rural Attorney

Recruitment program and that he doesn't see how it could work, unless implemented through the State's Attorney's office.

Nabholz spoke of the Bulldoze, Build and Beautify Community Development Block Grant program, noting possible confusion at the previous meeting about what houses qualify to be torn down, depending on property tax status. He also spoke of the in-kind contributions to the 50/50 cost share and various other items. The board asked Andrea Powers, Director of the Southern Hills Economic Development Corporation, to bring back some figures for a possible house in Hot Springs, as well as a house in Edgemont and to work with the Treasurer and the Director of Equalization to determine financial liability to the county with the grant.

Riessa Harvard, Alano, met with the board. Discussion was held the 2018 budget hearings for 2019, as well as what Alano does as a program. Motion made by Nabholz, seconded by Allen, to not provide funds for Alano, as it is not budgeted. Harvard will submit paperwork this year for the 2020 budget request.

Randy Seiler, Highway Superintendent, met with the board. Fuel quotes were presented as follows:

2-1-19	8000 Gal of 50/50 #1/#2 Blended Diesel
Nelson's Oil and Gas	\$2.405/gallon
MG Oil	No Bid (have diesel #2 with additive only)
PJ'S Hi-D-Way	No Bid (for tanker orders)

Motion made by Abbott, seconded by Russell, to approve the low and only bid from Nelson's Oil and Gas from 8,000 gallons of #1/#2 blend diesel for \$2.405 per gallon for a total of \$19,240.00.

Motion made by Russell, seconded by Allen, to approve the January 2019 fuel used or work performed to reimburse the highway department as follows: Weed & Pest for \$205.51; Sheriff's Department for \$2,268.58; Building for \$86.17; and Emergency Management for \$72.26.

Motion made by Russell, seconded by Nabholz, to approve the following resolution:

#### **FALL RIVER COUNTY RESOLUTION #2018-4**

**WHEREAS**, the Fall River County Board of Commissioners did adopt the following 2019 ANNUAL LOAD RESTRICTIONS:

Fall River County will impose load limits as follows in coordination with the State Highway's Annual Load Restrictions:

All oil roads will be posted at 7 ton, with the exception of County Road 6N aka as Look Out Road to be posted at 10 ton. These are seasonal Spring Load Limits and the restrictions will take effect when the signs are in place.

**NOW THEREFORE BE IT RESOLVED**, this amendment was approved and passed on this 5<sup>th</sup> day of February, 2019.

ATTEST:  
/s/Sue Ganje, Fall River County Auditor

/s/Joe Falkenburg  
Fall River County Board of Commissioners

Motion made by Abbott, seconded by Allen, to approve travel for Seiler to attend the short course training in Deadwood, March 26, 2019 through March 28, 2019.

Seiler updated the board that the highway department would be attending the MSHA training at the Mueller Center on February 20, 2019. Seiler also stated that they are graveling when possible. Nabholz asked Seiler to contact LTAP on how to pay based on % of acceptable gravel samples. Discussion was also held on changing speed limits on county road and winter road conditions.

The private road work hearing was held as advertised. Motion made by Abbott, seconded by Allen, to approve private road work in 2019 as per SDCL 31-11-41 through 31-11-45.

Motion made by Allen, seconded by Russell, to approve the bills as follows:

Break was taken at 10:20 a.m. and the meeting reconvened at 10:25 a.m.

Public comment was heard from Ann Abbott, Bob Evans and Paul Nabholz. Abbott had also received a letter commending Dan Cullen, VSO. Evans reports that there are 2 females and 5 males in the Fall River County Jail, with one inmate in Pennington County. Nabholz asked that the YouTube videos need to be louder and questioned if the minutes could be reduced due to the video recording and that people could use a link on the county website for the video recordings.

Ann Abbott, Commissioner, met with the board to discuss the land use policy. The board requested that Abbott get a committee together to propose changes to the board at a future meeting.

Deb Russell reported on the meeting she attended of the Black Hills Council of Local Governments. Jim Poppin, from the state Emergency Management, reported on mitigation grants. Deb stated that we are fortunate to have Emergency Manager, Frank Maynard, to keep the

commission informed on grant opportunities. Membership costs have been lowered for a year and tornado shelters were also discussed.

Motion made by Nabholz, seconded by Allen to enter into executive session for personnel purposes as per SDCL 1-25-2 (1) to review letters of interest for State's Attorney position and interview applicants for appointment at 10:53 a.m.

The board came out of executive session 12:43 p.m.

Motion made by Allen, seconded by Russell, to appoint Brian Ahrendt as State's Attorney to fill the unexpired term. By roll call vote, with Nabholz voting no, all others voting yes, the motion carried.

Motion made by Russell, seconded by Allen, to adjourn at 12:44 p.m.

/s/ Joe Falkenburg  
Joe Falkenburg, Chairman  
Board of Fall River County Commissioners

## CodeRED puts you in complete control

No matter where you are, you can target your message precisely to the people you want to reach, delivery the message you want to send, via the channels you want to use. It is quick, easy, and efficient and can be used whenever you feel that it's appropriate.

### Example applications

-  Dam/Levee Breaks
-  Dangerous individuals on the loose, active shooter
-  Evacuation Notices and routes
-  Fraud or scam alerts
-  General information (meetings/elections/reminders)
-  Garbage pickup changes
-  Gas leaks
-  Hazmat emergencies
-  Medicine/prescription/electronic drop-off event notices
-  Missing child/persons alerts
-  Mosquito spraying details
-  Mudslides
-  Neighborhood crime watch support
-  Severe weather warnings (floods, hurricanes, blizzards, etc.)
-  Street closures and traffic updates
-  Terrorist threats/bomb alerts and warnings
-  Utility outages and updates (water or electric)
-  Viral outbreaks and pandemics
-  Water boil advisories

### OnSolve:

Always On. Solving Problems.

OnSolve is the market leader in real-time, mass notification and collaboration solutions used by the world's largest organizations. The OnSolve suite of critical communication tools is a key component of effective business continuity, emergency response, IT alerting, and security programs around the globe.

To learn more about this service, contact your CodeRED representative today.

## Solution Overview

Presented to Fall River County, SD

February 12, 2019

## EMERGENCY AND CRITICAL COMMUNICATIONS

OnSolve provides the industry's most proven and easy-to-use notification services capable of reaching hundreds of thousands of citizens in minutes. The company has been in the critical communications business for nearly two decades, developing and implementing the technology that has delivered more than a billion messages across North America.

The OnSolve web-based product suite features three hosted solutions for municipalities:

- **CodeRED®** for community and staff notifications
- **CodeRED Weather Warning®** for automated severe weather alerts
- **CodeRED for IPAWS** providing integrated access to the nation's alerting system

### CodeRED

The CodeRED solution was designed specifically for government and public safety officials to record, send and track personalized voice, email, text and social media messages to citizens, as well as staff. OnSolve employs a proprietary mapping technology and patented delivery methods as integral components of its high-speed notification system in operation since 1998.

## CodeRED Mobile Alert app

This latest innovation in the public safety arena answers the question asked by many Emergency Managers nationwide – “How do we communicate with people in our jurisdiction who do not reside here?”

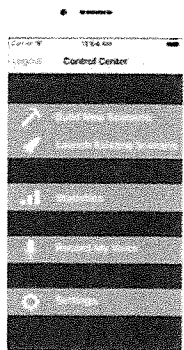

The answer is by using a location-based method to deliver CodeRED initiated messages. The CodeRED Mobile Alert app is geo-aware and sends push notifications to a subscriber's device when alerts are issued for their current geographical location. This advanced technology enables local officials which utilize CodeRED to reach those individuals passing through their jurisdiction and helps to also protect citizens traveling outside their local coverage area.

## MOBILE LAUNCHING CAPABILITIES

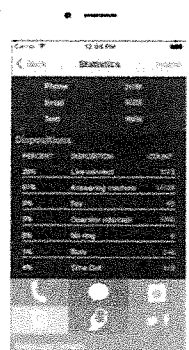

The world has become increasingly mobile and therefore, OnSolve has developed tools to meet the specific needs of our clients. This includes the ability to create and send notifications on the go, from any location at any time via a mobile device.

The CodeRED Launcher app, which can be used on any Android, iOS or Windows device, allows users to quickly and easily build scenarios, utilize saved scenarios, launch to existing contact groups, select a geographic calling area via the map, and launch ad hoc notifications across all modes of dissemination. The app also provides users with a detailed view of statistics in order to analyze each notification sent.

Simple and user-friendly interface

Ability to start and stop message campaigns from any device

Ability to record and save a voice message to be distributed at a later time

Integrated campaign statistics to show completion results

**The CodeRED Launcher app empowers users to launch notifications immediately from the field**

Two-way messaging allows system users to collect real-time responses from your message recipients; helping you make better informed decisions, fulfill open shifts, track resources, enable two-way dialogue, and more.

- View and track all responses via detailed analytics
- Establish a pre-determined expiration time for required responses
- Attach documents, pictures or files containing additional information
- Enable simple yes/no survey responses or text fields

### Simple implementation

The CodeRED system is operational immediately and can be ready for use today. With no equipment to install or phone lines to add, authorized users simply login to the CodeRED system with their password to begin. An initial calling database and local maps are provided by OnSolve and are instantly available to enable users to easily target residents and businesses by specified area.

### Ease of use

The CodeRED system was designed to be easy to use even under the most strenuous of conditions. Expecting use under pressure, the feature rich interface was built with a simple three step process to initiate critical communications. Messages may be launched by authorized users via telephone or the Internet, from anywhere at any time.

Training and refresher courses are regularly provided via live web-based seminars to ensure your staff is always comfortable with the system and confident in their ability to launch a notification.

### Live client support

Available 24/7/365, the OnSolve Client Support Team is staffed by knowledgeable individuals thoroughly trained on all aspects of the CodeRED system. In addition to handling inbound inquiries, the team monitors system activity as well as weather and other news feeds, to stay on top of developing situations; when appropriate, they will also reach out to clients to provide suggestions and support for system use.

## Technology

CodeRED's robust platform is built upon a sophisticated infrastructure which includes multiple built-in redundancies to support thousands of jobs running simultaneously.

Proprietary trademarked technology is used to ensure messages are delivered in their entirety regardless if the call is picked up by a person, or by an answering device. If a call is missed, message recipients may simply dial the system back via the toll-free number displayed on their caller ID to hear the last message delivered to their phone. This Universal ANI® feature is not only convenient for the recipients of notifications; but, it also relieves inbound call congestion on your personnel and often overworked emergency lines.

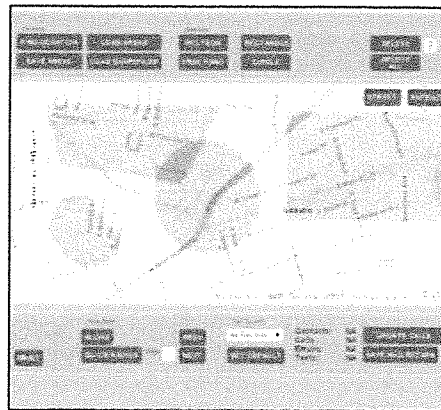

Furthermore, OnSolve manages its entire network in-house, maintaining control over dialing systems and not relying on any third-party or shared lines to place calls. This dedicated network ensures client jobs initiate immediately and do not have to be queued or competed by available phone lines with other dialing priorities. Most importantly, by eliminating any dependence on third-party Service Level Agreements (SLAs), an entire layer of potential failure is removed.

## Speed

The OnSolve infrastructure maintains a massive system capacity that is able to transmit millions of messages an hour. Each account is throttled and system resources are allocated to match the local telephone infrastructure, resulting in more connected calls, less network congestion, and fewer busy signals. The CodeRED system was built for use during time-sensitive situations, when ensuring communications are delivered as quickly as possible, is what matters most.

## Mapping

Mapping is available for use when messages need to be geographically targeted. The web-based mapping interface, written by OnSolve, is both intuitive and easy-to-use. CodeRED utilizes ESRI mapping as a foundation and has created area selection tools that range from polygons to simple paint brush tools, allowing users to quickly become familiar with the map's features. OnSolve hosts all components of the mapping interface, relying on no third-party providers.

OnSolve includes local mapping with your CodeRED license and has the ability to provide custom maps using client supplied GIS layers, or by integrating client supplied street layer mapping to the ESRI foundation. With CodeRED there is no requirement for client communities to purchase GIS software and there is also no need for you to utilize internal resources to host, maintain, or update maps.

## Calling data

Each client accesses a database which is populated by multiple sources. All compiled data is verified and addresses are assigned lat/long coordinates by the OnSolve custom multi-layer geo-coding service.

OnSolve provides initial calling data for immediate use; this allows communities to be up and running on CodeRED quickly. Data is acquired through various commercial sources and includes both residential and business data, as well as some mobile phones and VoIP numbers. This data is provided at no additional cost and serves as the foundation for each client's database.

The middle data tier is supplied by the client. Communities using CodeRED typically provide data from their local utilities as well as their 911 data. OnSolve geo-codes all client supplied data as a standard part of the database building process.

And finally, the most accurate layer of the pyramid is created by entries to the Community Notification Enrollment (CNE) page. OnSolve provides a custom Web page for each community, allowing residents and businesses to directly submit additional calling data, text and email addresses, as well as TDD/TTY requirements, to further populate the database. All information added to the CNE is instantly available for use within CodeRED.

## Validata®

The CodeRED database is scrubbed using the unique Validata process, numbers that cannot be confirmed as valid, are removed to create a cleaner, more efficient calling list.

## Internal use

The CodeRED system enables users to easily import data groups with up to eight points of contact including text and email addresses. OnSolve developed this multi-channel approach to internal communications as a way to ensure message consistency for first responder notifications, critical incident call outs, and official comment direction. With a few clicks of the mouse, multiple groups, an individual group, or specific group members can quickly be contacted. Users select the best way to send alerts and can then verify the information was delivered rapidly and accurately.

### **Integrated Public Alert and Warning System (IPAWS)**

OnSolve, the first vendor to successfully submit a job into the IPAWS program, has developed a Message Origination application within CodeRED for launching IPAWS messages. This functionality is made available to individuals who are authorized to use IPAWS and opens up a new communication channel - an Alert Disseminator - in support of the FEMA program. (Note: there is a fee associated.)

### **Affordability**

OnSolve has priced its CodeRED solution to be cost-effective. There are no set-up fees to pay, no equipment to buy, no phone lines to lease, and no annual maintenance is required. System time, training and support, initial calling database, mapping, integration of client supplied data, and database clean-up are all included.

The OnSolve pricing structure is calculated based on population and is designed to be FEMA friendly to help communities qualify for reimbursement when eligible.

---

Currently, CodeRED is used every day by clients from coast to coast across the U.S. and in Canada. To find out why the CodeRED high-speed notification solution has been selected as the preferred platform for critical communications by your colleagues time and again, we would be pleased to provide a list of clients who use CodeRED upon request, so you may hear directly from them regarding the advantages of the system.

### **Cost Proposal (PRICING GOOD FOR 90 DAYS FROM February 12, 2019)**

Keep staff and residents safe and informed with the CodeRED system with quick notifications of time-sensitive information, emergencies, and day-to-day operational updates. Send targeted emergency and community notifications to mobile subscribers located in specific geographic areas within your jurisdiction.

A one (1) year license includes

- CodeRED enterprise system set-up, on-going operation and custom training modules
- System time, designed to be 3 times more than normal usage
- 10,500 system minutes for emergency and general calling, replenished annually
- Unlimited initiator passcode users
- Unlimited SMS, email and social media messaging and social sharing
- Unlimited use of the CodeRED Launcher App
- Premium residential and business calling database supplied by OnSolve, with ongoing updates
- Managed data services with integration and geo-coding of OnSolve and client-supplied data
- OnSolve standard ESRI mapping
- Custom Geocoder at no charge (optional)
- Unlimited Two-Way messaging
- Unlimited notifications to citizens via CodeRED Mobile App
- Unlimited groups for internal alerting, with unlimited contacts
- Unlimited RSS Feed and Website Widget Alerting
- Unlimited message templates
- Emergency and General database
- Universal ANI® technology for streamlined call-backs and relief of inbound calling pressure during an emergency event
- Customizable Caller ID
- Validata® Data Cleansing Program-unique process of de-duplicating "like numbers" within your database, increasing call speeds and connection rates
- Includes an complimentary kick off ALL CALL to promote registration
- Live 24/7/365. Dedicated client and technical support team
- Complimentary system time for testing and training
- Design and hosting of custom Web page for community enrollment
- Detailed Job Statistics, which are retained indefinitely for retrieval at anytime

<p><b>\$2,300 = Annual Cost</b> (Based on population of 7,000)</p>
--

#### Alternative Annual Pricing Plans

\$ 2,800.00 = Unlimited Emergency Plus with 6,300 general minutes for calling  
All items listed above plus unlimited emergency calling

\$ 3,500.00 = Limitless  
All items listed above plus unlimited system calling

IPAWS Alert and Origination Tool – Unlimited use for WEA, EAS, NWEM, COG-to-COG, Public Alerts Feed, IPAWS Launch Validation, and Message Viewer Report can be added for \$500.00 additional

*All information contained within this document is Confidential and Proprietary to OnSolve, LLC*

## 2019 APPEAL PROCESS TIME FRAME

- March 1 - assessment notices must be mailed
- March 15 - last day to file for owner-occupied status with Director of Equalization

### Local Board of Equalization

- March 14 - last day to mail or file<sup>1</sup> written appeal with clerk of local board
- March 18 - local board begins
- March 22 - local board ends
- March 29 - last day to receive written notice of local board's decision

### County Board of Equalization

- April 2 - last day to mail or file<sup>1</sup> written appeal with county auditor
- April 9 - county board begins
- April 30 - county board ends
- May 3 - last day to receive written notice of county board's decision

### Consolidated Board of Equalization

- April 2 - last day to mail or file<sup>1</sup> written appeal with county auditor
- April 9 - consolidated board begins
- April 30 - consolidated board ends
- May 3 - last day to receive written notice of consolidated board's decision

### Office of Hearing Examiners

- May 17 - last day to mail or file<sup>1</sup> a written appeal with:

Chief Administrative Hearing Officer  
523 E. Capitol Ave  
Pierre, SD 57501

### Circuit Court

Appealing from County Board - you must appeal within 30 days after notice has been served of the decision.

Appealing from Office of Hearing Examiners - you must appeal within 30 days after notice of the decision.

<sup>1</sup> Use of the term "file" means in the hands of the official with whom it is to be filed. Postmarked by deadline is considered timely mailing.

**The following are proposed additions and/or changes to the employee handbook for 2019. Changes are shown in blue.**

1. The following is an additional policy section on county credit card usage. The wording for this policy was taken directly from the 2015 county resolution regarding the same. The Auditor's office asked that this resolution be changed into a policy so that the rules therein would be more accessible to employees and less likely to be forgotten.

### **POLICY # 16 County Credit Card Use**

#### **16.1 Offices to have Cards**

Credit cards will be located at and only be used by the following departments:

- Courthouse:
  - County Treasurer
  - County Auditor
  - and any other designated holders as determined by the County Commissioners
- Highway Department:
  - Highway Superintendent
- Sheriff Department:
  - Sheriff
  - Deputy Sheriffs
  - Civil Transport Deputy
- Emergency Management:
  - Supervisor

#### **16.2 Card Use**

The credit cards will only be used for the following purposes:

- Travel:
  - Hotel room lodging and/or deposits to hold rooms for authorized, official travel on County business
  - gas expense
  - meal expenses (only on overnight travel) [excludes items such as soft drinks, candy, etc]
- Equipment and supply vendors:
  - When the County does not have an account or is not expected to have an account;
  - Instances where the use of the card would result in beneficial terms for the county.

County credit cards will not be used for cash advances of any kind, or for any other purpose not specifically authorized by this policy.

#### **16.3 Card Use Review**

The Board of Commissioners shall, on a monthly basis, review the credit card statement to ensure all transactions shown on the card comply with this policy. Transactions that do not appear to comply with the policy shall be reported to the full Board immediately.

#### **16.4 Report of Card Use**

All receipts must be promptly remitted to the Auditor (within 5 business days of returning from said trip). **Any charges that cannot be properly identified or which are not made in conformity with County policy shall be paid immediately by the user of the card.** Charges to be reimbursed shall include any interest and all other related charges made by the credit card company.

#### **16.5 Discipline for Card Misuse**

Any officer or employee who uses a County credit card in a manner contrary to this policy shall be subject to disciplinary actions as determined by the Board of County Commissioners.

#### **16.5 Card Benefit**

All benefits, refunds, rebates and other incentives from the use of a credit card shall belong solely to the County and shall not benefit an individual.

#### **16.6 Change in Limit**

Card limit increase requests must be made to the County Commissioners.

This policy replaces county resolution #2015-15

**2. The next change is an addition to the Travel Expenses section allowing the Sheriff's deputies to continue being reimbursed for meals during prisoner transport. Original wording in the handbook did not include this preexisting exception.**

### **5.8 Travel Expenses**

**Meals will be paid for only when employees are traveling outside of Fall River County on overnight trips, see exception for Sheriff's Office below. Day trip meals are the responsibility of each individual employee. Lodging will only be paid for when traveling outside of a 50-mile radius of Hot Springs, unless approved by the County Commission.**

Same day travel: Meals may be reimbursed for Sheriff's Office Personnel engaged on prisoner transport outside of Fall River County during meal times. Same day travel meal reimbursement is at the discretion of the Sheriff. County credit cards cannot be used when purchasing said meals. Meal receipts and travel report must be turned in to the Auditor's Office. Reimbursement will be processed with payroll as taxable income.

3. The first addition comes as a request from department heads for a clearer outline of procedure when an employee is suspended due to a pending investigation. Currently this is mostly a footnote in section 8.4. We are requesting the addition of a new section, 6.3.7, that better outlines these procedures as well as the note on each section referencing the other.

#### **6.3.7 Policy for Administrative Leave Due to Pending Investigation**

An employee may be placed on Administrative Leave with pay or reassigned pending investigation.

The Department Supervisor will confer with the Chairperson or Vice Chairperson for the Board of Commissioners within 24 hours of the employee being placed on Administrative Leave to determine if said leave shall be paid or if the employee is to be assigned to other duties for the duration. If the employee was placed on paid administrative leave and is exonerated or is found innocent of the charges, the employee will be restored to original employment status. Reassignment should only be used when an employee's presence at work would not be harmful to the public, interfere with any ongoing investigations, or detract from the integrity of Fall River County government.

A Law Enforcement Officer may be placed on Administrative Leave pending an investigation relating to the use of lethal force in the performance of their job or an incident that requires investigation.

(Also see section 8.4 Suspension Without Pay or With Pay)

#### **8.4 Suspension Without Pay or With Pay**

The department head, with approval of the County Commission, may temporarily suspend an employee without pay for disciplinary purposes. Suspension shall be for no more than three (3) working days. Notice of such action shall be in writing to the employee with a copy to the County Auditor for payroll and personnel file purposes. In certain instances, i.e., when legal cases are pending, the employee may be suspended with pay.

An employee may be suspended with pay if investigational procedures are taking place before disciplinary action or termination.

(See Section 6.3.7 for further information on leave due to pending investigation)

1	The A V proposal from Hagerty's	Total \$10,352.00
2	The bill when complete	Total \$10,761.00
	Difference	\$409
3	Charge for better laptop	\$200
4	Total cost	\$10,961.00

There were comments from the audience and also commissioners that it was hard to hear in the room so we add the speaker and stand at a cost of \$600.00

During the first recording session we discovered the hard drive in the PC wasn't fast enough so Hagerty's exchanged it for a faster Laptop at an up charge of \$200

### Fall River County Portable AV Recording System v4

Lyle Jensen  
906 North River Street  
Hot Springs, SD 57747  
605 745 5144  
lylefrc@gmail.com

---

# Project Overview

This proposal presents a portable AV system to record audio and video for Fall River County meetings.

## Audio System

A combination of a Shure auto mixer/gooseneck/boundary microphones, and Focusrite Scarlett Solo will provide the ability place microphones at the necessary locations, and send an audio feed to the computer for recording. Audio will be monitored by plugging in headphones into the Focusrite Scarlett Solo.

The portable rack will include a custom microphone/video input plate to easily connect the gooseneck microphones, cameras, and an external display to the system. Additionally, utility drawers are specified to provide secure storage of the equipment.

## Video System

The laptop computer will include the live production software vMix. This software provides professional recording and streaming capabilities in an intuitive package. Two PTZ Optics NDI cameras will interface via Ethernet connections to a TP Link Ethernet Switch. This connection allows camera power, control, and video to occur over a single Ethernet cable connected to the custom input plate in the mobile equipment rack. This eliminates the need to plug the cameras into outlets giving freedom to position the cameras in the optimal location. An external Quad-Layer BD/Dual-Layer DVD/CD drive is included to record/catalog/store material captured during meetings, providing the ability to record up to 128GB of data on a single BD-R QL disk.

Two On-Stage microphone stands with camera adaptors will serve to position the cameras. Heavy bases are specified to provide a solid foundation to achieve optimal camera heights.

# Terms and Conditions

This proposal is valid 45 days from the date on the cover page. If this proposal is accepted, following an approved purchase order (if necessary), an installation date will be scheduled. Instances where the installation date exceeds two months following an accepted proposal, and/or there are multiple stages to the project, invoices may be submitted for product needing to be ordered in advance to ensure availability for the pre-installation and final installation stages. Additionally, invoices may be submitted for labor during pre-installation stages.

Product warranties follow the manufacturers' warranty policies.

Haggerty's AV will assemble, test, and deliver the system, as well as provide basic training.

# Budget

Qty	Mfg.	Part #	Description
1	Shure	SCM810	8-Channel Auto Mixer
1	Focustire	Scarlett Solo	USB Audio Interface
1	ETA	ETA-PD8A	Power Conditioner/Distribution

**Policy #2011-01**  
**Land Use Policy For Fall River County**

As the elected government of Fall River County, South Dakota, we have a solemn duty to protect the health, safety, and welfare of our County citizens. To fulfill this duty we hereby adopt the following policies for lands publicly held in our County. Should any entity wish to deviate from these policies, they must coordinate with us.

Whereas agriculture and the grazing of livestock are essential to the economic welfare of this County and of the citizens and the businesses that are supported by agriculture, we oppose reduction in grazing allotments or any other change that would hamper our agricultural industry.

Whereas tourism and recreation are critical elements in our County's economic well-being and support many local businesses and because the access to public lands is essential to tourism and recreation, we oppose reduction in public access to public lands.

Whereas access to public lands and the safety of our citizens requires an adequate system of roads, we oppose road closures or travel restrictions on public lands. This does not authorize access across private land.

Whereas our wildlife community and man have developed a balance over the years since man's arrival here, we oppose the introduction or re-introduction of any species not currently present in our county. An exception to this policy would be the introduction of biological control of noxious weeds and other invasive plant species. As agriculture and the raising of livestock are major industries in our County, we oppose the introduction or re-introduction of any predator animals and support control of any existing predators.

Whereas Fall River County currently includes substantial amounts of publicly held land, we oppose further additions to public land unless an equal value of land is returned to private ownership.

Whereas our County contains significant archeological resources that are of interest to the public, we oppose restriction on public access to these resources.

Whereas tourism and aesthetics are important to our citizens and also important to their safety, we favor good forestry management and immediate attention to disease outbreak or infestation in the forests or grasslands.

Whereas usage of natural resources has been historically important in our County and is important to our citizens' economic welfare, we favor good forestry management, well managed timber sales and safe mineral extraction.

We favor agricultural and recreational activity on public land to include, but not be limited to, livestock grazing, hunting, hiking, ATV riding, rock hounding, horse-back riding, sight-seeing, photography, or camping.

***Adopted by the Fall River County Commission***  
***April 5, 2011***

## [EXT] Housing Commission Merger for County Commission

Greg Foust <Greg@hotspringshousing.org>

Fri 2/8/2019 9:59 AM

To:Ganje, Sue <Sue.Ganje@state.sd.us>;

Cc:Jim Stevens (C21Stevens@aol.com) <C21Stevens@aol.com>; Mike McNeill (mmcneill@fs.fed.us) <mmcneill@fs.fed.us>; Terry Slagel (TerrySlagel@Yahoo.com) <TerrySlagel@Yahoo.com>; Randy Meyers <rwmeys@gwtc.net>; Connie Gerard (Connie.Gerard@FIB.com) <Connie.Gerard@FIB.com>;

1997 Sword re FRHRC.pdf; HSH&RC Dissolution Resolution 020419.pdf;

Sue,

I hope this goes well! I did find a minor glitch that I had not encountered prior to this, but Brian Ahrendt's review of the attached documents should probably determine the impact of the glitch.

The first attached file is a letter, dated 10/16/97, from States Attorney Jim Sword regarding the appointment of members of the Fall River **County** Housing & Redevelopment Commission, which was evidently done and continues to date.

The second attached file is the signed fully executed Resolution 2019-6, dated 02/04/19, dissolution of Hot Springs Housing & Redevelopment Commission by the City of Hot Springs. However, the Resolution names the Fall River entity **without** the term "**County**."

Another minor issue that may need to be discussed during our presentation on 02/19/19 with the County Commission is the matter of By-Laws for the newly merged entity with regard to the following:

- Total number of Housing Commissioners – Since the current Housing Commissions are composed of 5 members each, with 4 being on both entities, the thought is that the merged Housing Commission could be expanded to a total of six (6) members; the Chairperson would not vote on items of business unless there was a deadlock of other voting Housing Commissioners, which has been a rarity in my 10 year term as Executive Director.
- Place of residence of Housing Commissioners – A minor concern was raised during discussions with the City of Hot Springs that the balance of membership on the county-wide Housing Commission could be changed from Hot Springs residents to Fall River County residents, which could impact the focus of future development activity of the Housing Commission. In addition to Connie Gerard, the current Edgemont-area resident on the FRH&RC, the County Commission's appointment of Randall Meyers to FRH&RC in December, makes 2 of the proposed merged Housing Commission members Fall River County residents, as Mr. Meyers lives in Eagle Valley, which is outside of the City of Hot Springs. Discussion of this concern was held during the joint Housing Commission meeting on 01/16/19 with consensus perspective that county-wide consideration of future housing development would appropriately consider a balance of City of Hot Springs and Fall River County housing needs. It was also discussed that By-Law changes addressing

this concern could be proposed to specifically address the mix of City and County resident representation on the new Housing Commission.

The overall purpose for this merger is a stream-lining of oversight of the ownership, management, asset maintenance and future housing development opportunities in Fall River County. Should other concerns arise during this prelude to the presentation of the request at the 02/19/19 meeting of the Fall River County Commission, we can make response to States Attorney Ahrendt or individual County Commissioners, as needed.

Let me know if you need anything further for the agenda or packet for the County Commissioners. Thank you for your assistance with this matter and I look forward to the 02/19/19 meeting!

Greg

Re: Fall River County Housing and Redevelopment Commission

Commissioners:

This past summer it was brought to my attention that it was necessary to establish the Fall River County Housing and Redevelopment Commission. The commission was properly established in the 1970's. All that is necessary is to appoint members to the Commission. I have enclosed an affidavit that provides for the appointment of the Hot Springs Commission members to the Fall River Commission. In speaking with Don Hennings and Mr. Heimbuck I believe that this is the easiest solution to the problem.

The statutes provide for the staggered terms for the initial Commission. Afterwards, the members are appointed to five year terms. Also, the Commissioners must be residents of Fall River County.

If you have any questions, don't hesitate to contact this office.

Sincerely,

James G. Sword

cc: Don Hennings

AFFIDAVIT AND CERTIFICATE OF  
APPOINTMENT AND DETERMINATION OF TERMS

STATE OF SOUTH DAKOTA       )  
                                      )SS  
COUNTY OF FALL RIVER       )

I, Erv Heimbuck, being first duly sworn on oath depose and certify that I am the duly qualified and acting Chairman of the Board of County Commissioners of Fall River County, South Dakota and that the persons named below have been duly appointed, pursuant to SDCL 11-7-12, by me and approved by the Board of County Commissioners of Fall River County, South Dakota, as members of the Fall River County Housing and Redevelopment Commission, and that said persons, as of the date hereof, are the duly appointed and acting members of said Housing and Redevelopment Commission.

I further state that the term of office of the respective members of the Fall River County Housing and Redevelopment Commissions is that set opposite their names below.

<u>Commission Members</u>	<u>Term</u>
William Baldwin . . . . .	1 year <i>May 98</i>
Verlin Cavier . . . . .	2 years <i>May 2000</i>
Paul Schott . . . . .	3 years <i>May 99</i>
Florence March . . . . .	4 years <i>May 2001</i>
Pat Karjalainen . . . . .	5 years <i>May 2002</i>

I further certify that the appointment of the above named Housing and Redevelopment Commission members, and their terms of office were approved by the Board of Commissioners of Fall River County, South Dakota on the \_\_\_\_\_ day of \_\_\_\_\_, 1997.

Dated at Hot Springs, South Dakota this \_\_\_\_\_ day of \_\_\_\_\_, 1997.

\_\_\_\_\_  
Erv Heimbuck - Chairman  
Fall River County Commissioner

Subscribed and Sworn before me  
this \_\_\_\_\_ day of \_\_\_\_\_, 1997.

\_\_\_\_\_  
Notary Public - South Dakota

RESOLUTION 2019-6

**A RESOLUTION TO AUTHORIZE THE DISSOLUTION OF THE HOT SPRINGS HOUSING & REDEVELOPMENT COMMISSION TO FACILITATE MERGER WITH FALL RIVER HOUSING & REDEVELOPMENT COMMISSION**

**WHEREAS**, the Hot Springs Housing & Redevelopment Commission is currently a legally separate component unit of the City of Hot Springs, and

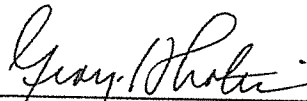

**WHEREAS**, a request has been made, in writing, to the governing body of the City of Hot Springs by the Hot Springs Housing and Redevelopment Commission, to dissolve said commission in order to merge with the Fall River Housing & Redevelopment Commission, and

**WHEREAS**, South Dakota Codified Laws 11-7-7.2, stipulates "The governing body of any first or second class municipality may, by resolution, dissolve the housing and redevelopment commission of such municipality for the purpose of electing to participate in a county housing and redevelopment commission" now, therefore,

**IT IS HEREBY RESOLVED**, that pursuant to SDCL §11-7-7.2 the governing body approves the request to dissolve the Hot Springs Housing and Redevelopment Commission, by this resolution, for the purpose of merging with the Fall River Housing & Redevelopment Commission.

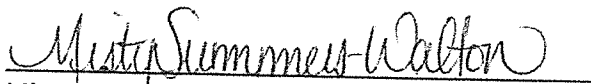

Dated this 4<sup>th</sup> day of February, 2019.

APPROVED:

  
George Kotti, Mayor

ATTEST:

  
Misty Summers-Walton, Finance Officer

Fall River County Commissioners

RE: Update on Tax Deeds in Fall River County

I have been working very diligently on Tax Deeds in Fall River County. Currently there are about 68 of them I have started. 12 of those 68 are in phase 2; meaning I am in the process of finding relatives, having them served, publishing in newspaper etc.

I am bringing you a list of 7 out of those 68 that I am in the FINAL stages of the Deed process. Meaning everyone to my knowledge has been served by their County Sheriff and the 60 days has passed for them to pay. We are ready to take Deeds on those 7.

Because this is a process and there are legalities involved, I have given those 7 files to the States Attorneys Office to do one final review before the county puts the property in their name. I have handed those files to the States Attorney's office on February 12<sup>th</sup> and when I hear back from them, I will continue with the process of taking deed.

Below are the NAMES, PARCELS and AMOUNTS of delinquent taxes on the 7 that are ready. I have also asked the Equalization Office to prepare information for you on the property, such as pictures, Assessed Value and map location, so you can have that available before it comes time for the Tax Sale.

Kenneth M. & Rozie M. Johnson – 72150-13800-00100 - \$2,492.92  
LR Snow – 72220-00800-01600 - \$951.76  
Pam Leeper – 72220-00200-01392 - \$10,891.01  
KG Company – 65140-06000-00600 - \$510.56  
Louis & Mildred Biltoft – 72150-05000-00700 - \$8,803.57  
Chod Hill & Katherine Schnare – 65212-00000-00501 \$3,604.82  
Brian Barber – 72150-05200-01700 - \$1,566.14

These 7 add up to the amount of \$25,520.78 as of February 12, 2019.

Thank You,

Kelli Rhoe  
Fall River/Oglala Lakota County Treasurer

# United States Department of the Interior

## BUREAU OF RECLAMATION

Dakotas Area Office

Rapid City Field Office

515 Ninth Street, Room 101

Rapid City, SD 57701

IN REPLY REFER TO:

DK - 4000

2.1.2.06

February 5, 2019

Subject: 2019 Emergency Management Exercise, Angostura Dam, South Dakota

Dear Emergency Management Participant:

The Bureau of Reclamation will conduct Emergency Management Exercises including Emergency Action Plan (EAP) review, EAP Communications Drill, and EAP Orientation Seminar. You and/or appropriate members of your staff are invited to participate in this meeting. Please see the enclosed agenda.

**Please bring your copy of the Standing Operating Procedures or Emergency Action Plan if you have one.**

This year's exercise will include a trip to the dam, after the meeting, to verify first responders know how to get to the dam. Please make plans to attend this special meeting. All we ask is that you wear boots and not take pictures. **This non-public tour requires a list of tour participants be submitted in advance. If you want to invite staff that are not receiving this notice, please submit their names by March 1<sup>st</sup>.**

**Date:** Tuesday, March 26

**Time:** 9:00 A.M.

**Location:** Oral School Building, Oral, South Dakota

A review of the EAP will be conducted to confirm and validate emergency procedures contained in the EAP, as well as specific information (e.g., names, telephone numbers, and organizations in the Communications Directory).

An EAP communications drill will be held to evaluate the effectiveness and interoperability of the primary and alternate (backup) means of communications, and to validate EAP notification procedures. This drill is used to ensure communications equipment is operational and the communications directory associated with the EAP is current.

An EAP Orientation Seminar will be held as an informal discussion designed to orient participants with the EAP, subsequent roles and responsibilities, and the EAP's relationship with the standing operating procedures. The seminar will introduce personnel with a role in the EAP to new or updated emergency procedures and their responsibilities.

Reclamation's See-N-Say security program will also be discussed. If you have any questions, please contact me at 605-519-5419.

Sincerely,

STEVEN  
SCHELSKE

## **ANGOSTURA DAM EMERGENCY MANAGEMENT EXERCISES AGENDA**

**Date:** Tuesday, March 26  
**Time:** 9:00 A.M.  
**Location:** Oral School Building, Oral, South Dakota

### **WELCOME AND INTRODUCTIONS: 9:00 - 9:10 a.m.**

- Sign Attendance Sheet
- Introductions - Review of Changes of Personnel
- Meeting Notice – review and update contact information
- Communications Directory – review and update contact information

### **EMERGENCY ACTION PLANNING PROGRAM: 9:10 – 9:40 a.m.**

- Emergency Action Plan review and maintenance
  - Emergency Procedures
  - Contact Information
  - Updating EAP format
  - EAP distribution list
  - Emergency Level Categories – hazard types and conditions (PowerPoint)
- Communications Drill
  - Communications Directory
    - Satellite phone
    - Confirm County Emergency Managers
- Orientation Seminar
  - Informal discussion
  - Personnel roles and responsibilities
    - Reclamation - respond to potential safety or flood conditions (monitoring) and notification to jurisdictions
    - Jurisdictions (NWS & Emergency Management) – warnings & evacuations
    - Reserved Works vs. Transferred Works
- EAP – Standing Operating Procedures (SOP)
  - Inundation Maps

### **OPERATIONS: 9:40 - 9:50 a.m.**

- Reclamation - water operations
- National Weather Service – weather outlook
- USGS – gages

### **SECURITY: 9:50 - 10:00 a.m.**

- See-N-Say security program
- Telephone numbers
- Reward

### **CLOSEOUT QUESTIONS AND ANSWERS: 10:00 a.m.**

FUTURE MEETINGS – same date next year

# REGISTRATION FORM FOR OPTIONAL FIELD SEMINARS/TRIPS

## 2019 Western South Dakota Hydrology Conference

April 12, 2019

*(final details on field trips will be sent to registered participant's email,  
and posted on the website in early April)*

Optional free field seminars/trips are being offered on a first-come, first-serve basis as part of the 2019 Western South Dakota Hydrology Conference. Professional development hours (PDHs) are available for the lecture portion of the field seminars/trips. To be eligible for these field seminars/trips, you must be pre-registered for the conference. Also, you must provide your own transportation to and from the site locations. Please select only 1 of the following:

Name: \_\_\_\_\_

☐

### **Field trip #1: Geology and Hydrology of the Northern Black Hills**

Description: The field trip will discuss the sequence of Precambrian to Cretaceous age formations and major aquifer units in the northern Black Hills. Stops will be made at significant exposures of sedimentary, igneous and metamorphic rocks.

Maximum attendees: 15

Leaders: Mark Fahrenbach and Joanne Noyes (South Dakota DENR Geological Survey Program)

Meeting time: 8AM

Meeting location: Civic Center parking lot (east side). Due to limited parking space and traffic concerns along the tour route, transportation will be provided via vans.

Duration: 8AM – 4PM (approx.). You should pack your own lunch. However, a stop will be made at the Subway in Sturgis along the way. 6.0 PDH

☐

### **Field trip #2: The Past, Present, and Future: Progress Towards Better Stormwater Management in Rapid City**

Maximum attendees: 25

Description: Field trip highlighting the changes in Rapid City stormwater management over the last century from older conveyance and end-of-pipe solutions to modern multifunctional and upgradient solutions

Leaders: Jason Phillips and Heidi Sieverding, SDSM&T

Meeting time: 8AM

Meeting location: TBD

Duration: 8AM – 11AM (3.0 PDH)

☐

### **Field trip #3: Pactola Dam operations (*in planning – not yet confirmed*).**

Maximum attendees: 25

Description: Tour of Pactola Dam and related operations infrastructure in Rapid Creek basin.

Leaders: TBD, U.S. Bureau of Reclamation

Meeting time: 8AM

Meeting location: TBD

Duration: 8AM – 12PM (4.0 PDH)

## 2019 WESTERN SOUTH DAKOTA HYDROLOGY CONFERENCE PROGRAM

Thursday, April 11, 2019

Alpine/Ponderosa/Rushmore Rooms – Rushmore Plaza Civic Center

7:00 – 8:00 a.m.	REGISTRATION	
8:00 – 10:00 a.m.	<b>Plenary Session 1 in Alpine and Ponderosa Rooms – Invited Speakers (2.0 PDH)</b> <b>Moderator – Joyce Williamson, U.S. Geological Survey</b>	
8:00 – 8:10 a.m.	Welcome and general announcements	Joyce Williamson, U.S. Geological Survey
8:10 – 8:50 a.m.	Impacts of Sedimentation on Missouri River Reservoirs and Free-Flowing Segments	Tim Cowman, State Geologist, SD DENR Geological Survey
8:50 – 9:20 a.m.	An Overview of South Dakota's Integrated Report	Shannon Minerich, SD DENR Surface Water Quality program
9:20 – 10:00 a.m.	Opportunities at the Sanford Underground Research Facility	Jaret Heise, Sanford Underground Research Facility
10:00 – 10:30 a.m.	<b>REFRESHMENT BREAK in Rushmore G – Sponsored by TBD</b>	
10:30 a.m. – 12:00 p.m.	<b>Concurrent Session 2A in Alpine Room – Underground Water (1.5 PDH)</b> <b>Moderator – Foster Sawyer, SDSMT</b>	<b>Concurrent Session 2P in Ponderosa Room – Water Management (1.5 PDH)</b> <b>Moderator – Greg Delzer, USGS</b>
10:30 – 10:50 a.m.	Dewatering and Water Quality at Sanford Laboratory – Bryce Pietzyk Underground Infrastructure Director (Sanford Laboratory) and John Scheetz, Environmental Manager (Sanford Laboratory)	Development of the West Dakota Water Development District's Future Use Permit for Water from the Missouri River – Kurt Katzenstein, Scott Kenner, Arden Davis, Mark Anderson, Regan Wess, Haley Noteboom, and Kaleb Hedman, South Dakota School of Mines & Technology
10:50 – 11:10 a.m.	Fracking and Stray Gas in Groundwater: It's Complicated – Daniel Soeder, Energy Resources Initiative, South Dakota School of Mines & Technology	Site-scale integrated Decision Support Tool (i-DST) for stormwater management – Ali Shojaeizadeh and Mengistu Geza, South Dakota School of Mines and Technology
11:10 – 11:30 a.m.	Aquifer Testing Results for a Well Completed in the Madison Aquifer near Hot Springs, SD – Mitch Kanneberg and Mike Plante, WSP USA, Inc.	The RESPEC Irrigation Management Assistant (IMA): a web-based, mobile-friendly, irrigation-scheduling application that reduces the environmental impact of irrigation while reaping multiple benefits – Koby Dobler and Jared Oswald, RESPEC
11:30 – 12:00 p.m.	Applying a Jewel Cave model of speleogenesis to Wind Cave – Michael Wiles, Jewel Cave National Monument	Conservation of Irrigation Water Through the Use of Compost as A Soil Amendment – Jerry Wright, South Dakota School of Mines and Technology
12:00 – 1:30 p.m.	<b>LUNCH in Rushmore F Room (1.0 PDH) – with accompanying presentations</b> <b>West Dakota Water Development District: TBD</b> <b>RESPEC: Jason Love</b> <b>John T. Loucks Distinguished Lecture – “Growing a Revolution: Bringing Our Soil Back to Life” by David Montgomery, University of Washington</b>	

1:30 – 3:10 p.m.	<b>Concurrent Session 3A in Alpine Room – Water Modeling (1.5 PDH)</b> Moderator – Scott Kenner, SDSMT	<b>Concurrent Session 3P in Ponderosa Room – Climate and Ecosystems (1.5 PDH)</b> Moderator – Melissa Smith, National Weather Service	<b>Concurrent Session 3H in Rushmore H Room – Great Plains Tribal Water Alliance meeting (1.5 PDH)</b> Moderator – Doug Crow Ghost, Standing Rock Sioux Tribe
1:30 – 1:50 p.m.	The Big Sioux River Flood Information System: A one-stop web platform to access real-time stream conditions, flood forecasts, visualizations, inundation maps and flood-related data – Jason Love, Seth Kenner, and Peter Rausch, RESPEC	Integrated watershed management in the Kootenai River, MT: a fisheries and food web perspective – Lisa Kunza and Kurt Chowanski, South Dakota School of Mines & Technology	Session introduction: Climate Adaptation in Native American Communities – Doug Crow Ghost, Standing Rock Sioux Tribe
1:50 – 2:10 p.m.			
2:10 – 2:30 p.m.			
2:30 – 2:50 p.m.			
2:50 – 3:10 p.m.	Deerfield, Pactola and Rapid Creek Systems Analysis Modeling – Rosemary Squillace, David Waterman, and Scott Kenner, South Dakota School of Mines & Technology	An Investigation into Anomalous Wet and Dry Years across Western South Dakota – Keith Sherburn, National Weather Service	Climate Impacts to Native American Lands – Imtiaz Rangwala, Climate Science Lead, North Central Climate Adaptation Science Center (NCCASC)
3:10 – 3:30 p.m.	Water-Balance Modeling of Volumes of Selected Lakes for Evaluating Viability as Long-term Fisheries in Kidder, Logan, and Stutsman Counties, North Dakota – Bob Lundgren, U.S. Geological Survey	Evaluation of USGS ICMAP data products to assess forest condition in western South Dakota – Patrick Kozak, Heidi Sieverding, and James Stone, South Dakota School of Mines & Technology	Opportunities and Actions for Climate Adaptation – Stefan Tangen, GPTWA and NCCASC, Logan Gayton, GPTWA/Louis Berger Intern, and Chance Knutson, GPTWA/Louis Berger Intern
3:10 – 3:30 p.m.	Well Placement Design Using Extremal Optimization for Aberdeen, SD – Fieford Redolaza and Liangping Li, South Dakota School of Mines & Technology	Tree cover and topography affect river ecosystem metabolism in the Black Hills, South Dakota – Kurt Chowanski and Lisa Kunza, South Dakota School of Mines & Technology	
<b>REFRESHMENT BREAK in Rushmore G – Sponsored by TBD</b>			
3:30 – 5:00 p.m.	<b>Concurrent Session 4A in Alpine Room – Hydrology Potpourri (1.5 PDH)</b> Moderator – Daniel Soeder, Energy Resources Initiative, SDSMT	<b>Concurrent Session 4P in Ponderosa Room – Dams and Geomorphology (1.5 PDH)</b> Moderator – Joanne Noyes, SD DENR	<b>Concurrent Session 4H in Rushmore H Room – Great Plains Tribal Water Alliance meeting (1.5 PDH)</b> Moderator – Doug Crow Ghost, Standing Rock Sioux Tribe
3:30 – 3:50 p.m.	Experimental and modeling investigation of heavy metals removal using modified sorbents – Raul Vasquez, Mengistu Geza, Md Sazadul Hasan, Ali Shojaeizadeh, South Dakota School of Mines and Technology	Evaluating Geomorphic Characteristics of Remotely Classified River Systems in the US Great Basin – John Costello and Scott Kenner, South Dakota School of Mines & Technology	Drought Adaptation Planning – James Rattling Leaf, Sr., Co-PI for the NCCASC Program and Syed Hugi, Director, Water Resources for Rosebud Sioux Tribe
3:50 – 4:10 p.m.	Aquaponics: A Water Resources Project Kelsey Murray, Environmental Engineering Program Director, Western Dakota Tech	Geology of Dam Spillways – Perry Rahn, Department of Geology & Geological Engineering, South Dakota School of Mines & Technology	
4:10 – 4:30 p.m.	Using green stormwater infrastructure to create urban biodiversity corridors – Heidi Sieverding, Andrea Vargas Castano, and James Stone, SDSMT, Henning Nottbrock and Charles Fenster, South Dakota State University	Emergency Response Monitoring for Croville Spillway – Kayla Ranney, Jaime Lubeck, and Daniel Osmun, HDR, and Olivia Virgadamo, California Department of Water Resources	Climate Adaptation Workshop – Stefan Tangen, GPTWA and NCCASC, James Rattling Leaf, Sr., Co-PI for the NCCASC Program, and Imtiaz Rangwala, Climate Science Lead, NCCASC
4:30 – 4:50 p.m.	The Science of Hydrology in the Courtroom – Mark Anderson, South Dakota School of Mines & Technology	Little Missouri River Initiative: Cooperative streamflow and water chemistry data collection between the North and South Units of Theodore Roosevelt National Park – Bryce Klasen, North Dakota State Water Commission	
4:50 – 5:00 p.m.	<b>Poster session lightning talks – 1 minute for each poster presenter – in Alpine Room</b>		

5:00 – 6:30 p.m.	<b>EVENING SOCIAL and POSTER SESSION (with complimentary refreshments) in Rushmore G</b> <b>Sponsored by TBD</b> <b>POSTER CONTEST WINNERS ANNOUNCED AT 6:00 PM</b>
	Removal of heavy metals from urban stormwater using biochar and nanoscale zerovalent iron modified biochar – Md Sazadul Hasan, Mengistu Geza, and Raul Vasquez, South Dakota School of Mines & Technology
	Potential Influence of Climate Change on Stream Temperature in Regulated and Unregulated Streams in the Black Hills – Lucas Graunke, Lisa Kunza and William Capehart, South Dakota School of Mines & Technology
	Water Quality Trends in the Big Sioux River Basin – Amber Ickes, Lisa Kunza, and Kurt Chowanski, South Dakota School of Mines & Technology
	Sensitivity analysis of frequency storm parameters in HEC-HMS – Angelinah Rasoeu and Suzette Burchard, South Dakota State University
	Aqua 3.0 – Gabe Mariani, Cody Runge, Cameron Ault, Bryan Mitchell, and Kelsey Murray, Western Dakota Tech
	Hydrological Models for Rainfall-Runoff in Arid Regions: A Literature Review – Ali Alsubei and Suzette Burchard, South Dakota State University
	Characterizing Rangeland Salinization in Northwest South Dakota – Patrick Kozak, Lisa Kunza, Kurt Chowanski, and Dan Heglund, South Dakota School of Mines & Technology
	Investigation into Needs and Future Use of Missouri River Water for Western Pennington County, South Dakota – Kaleb Hedman, Hailey Noteboom, and Regan Wess, South Dakota School of Mines and Technology
	[More posters wanted! Deadline March 1, 2019]

### OPTIONAL FIELD SEMINARS/TRIPS – FRIDAY, APRIL 12, 2019

Times	Field Seminar/Trip
8:00 a.m. – 4:00 p.m	<b>Geology and Hydrology of the Northern Black Hills.</b> The field trip will discuss the sequence of Precambrian to Cretaceous age formations and major aquifer units in the northern Black Hills. Stops will be made at significant exposures of sedimentary, igneous and metamorphic rocks. (6.0 PDH)
8:00 – 11:00 a.m	<b>The Past, Present, and Future: Progress Towards Better Stormwater Management in Rapid City.</b> Field trip highlighting the changes in Rapid City stormwater management over the last century from older conveyance and end-of-pipe solutions to modern multifunctional and upgradient solutions. (3.0 PDH)
8:00 – 12:00 p.m	<b>Pactola Dam operations (<i>in planning – not yet confirmed</i>).</b> Tour of Pactola Dam and related operations infrastructure in Rapid Creek basin. (4.0 PDH)
