RE: 2021 Walk for Warmth – Corporate Sponsorship

Dear Friend,

Happy New Year! While we have been enjoying a rather mild and calm winter thus far, we know that winters in South Dakota can be brutal. What you may not know is that many of our neighbors throughout the community have to make the difficult decision between putting food on the table or paying their energy bill.

Each year the Walk for Warmth fund serves hundreds of families throughout the Black Hills. These families are facing a financial crisis and turn to The Salvation Army for help. The dollars raised through the Walk for Warmth ensure they do not experience a service disruption and remain warm in their homes during our coldest months of the year.

The annual Walk for Warmth is February 20th, starting at Main Street Square in Rapid City at 2:00 p.m. We are asking that you please consider becoming a Walk for Warmth Corporate Sponsor and helping your neighbors in need. In addition, Black Hills Energy will be matching funds raised for Walk for Warmth, up to \$10,000! Corporate Sponsorship Levels and incentives are detailed on the enclosed form.

To register your business as a Corporate Sponsor, please return the enclosed form along with your check or money order (payable to: "The Salvation Army") or visit walkforwarmthrc.com to register online. If you have any questions, or would like additional information, please feel free to contact me at (605)791-4045. Thank you very much!

Letter to Commissioners regarding ending the Moratorium on the Sale of Delinquent property tax certificates.

Commissioners, Some 5 years ago a moratorium was placed on the sale of delinquent property sales tax certificates. The purpose stated for this moratorium was to give time to the then County Treasurer to deal with the accounting issues that were taking place at the time. Since then the accounting issues have been addressed. I am asking that the moratorium be removed.

There are many good reasons to do this.

1. This is a historically tried and true system that insures the county receive the taxes due.
2. This system is a far superior one to a individual payment plan for each incidence that the taxes have not been paid. This system requires oversight that burdens the treasurer and creates additional problems should the payment plan not be met.
3. In many cases this system allows for the procurement and development of property that will then have the property taxes paid in the future.

I personally know of at least two cases where this system would solve and simplify property issues. I would be happy to speak on them.

A. For purposes of this Section, "Veterinarian" shall mean a veterinarian licensed to practice in the State of South Dakota.

B. It shall be the duty of every health care practitioner to report to the Shelter Manager, the names and addresses of persons treated for bites inflicted by animals, together with such information as will be helpful in rabies control

C. Every owner having knowledge that his/her animal has bitten or is suspected of biting a human being, shall forthwith report the same to the Shelter Manager for disposition of said animal under the provisions of this ordinance.

D. All quarantine procedures and all procedures for management of animals that have bitten humans, animals exposed to rabies, and rabid animals, will be in accordance with the current "Compendium of Animal Rabies Control" promulgated by the National Association of State Public Health Veterinarians, Inc. In case of conflict between said Compendium and this ordinance concerning said quarantines and procedures, the recommendation in said Compendium will take precedence over this ordinance.

E. Any animal shall be considered unvaccinated unless proof of a current rabies vaccination effective not less than thirty (30) days prior to the bite is provided within twenty-four (24) hours of the bite. An Animal Control Officer or the State Department of Health may order the destruction of any unvaccinated animal that has bitten a person if, based on sound medical

judgments, a greater risk to human life exists by not doing so. In making such determination the following facts may be considered:

- i) The history of the animal, including the possibility of its exposure to rabies;
- ii) The vaccination record of the animal;
- iii) The health of the animal;
- iv) The nature, location, and seriousness of the bite;
- v) The circumstances surrounding the bite, including whether or not the bite was provoked; and
- vi) The tolerance of the person bitten to the vaccines used for treatment.

F. Any dog or cat that bites or attacks a person shall be quarantined at the direction of the Animal Control Officer or any veterinarian for a period of not less than ten (10) days. During quarantine the animal shall be securely confined and kept from contact with any other animal or humans other than the caretaker. If the dog or cat has bitten or attacked while on the premises of the owner and has a current rabies vaccination by veterinarian, the Shelter manager may, if it is determined that the facilities are adequate and the owners are responsible persons, quarantine the animal on the owner's premises. The quarantined animal must, at all times be available for inspection during the quarantine period, and shall be evaluated by the veterinarian at the first sign of illness. Confinement is to be at the owner's expense.

G. At the end of the specified quarantine period, the animal will be examined by a veterinarian at the owner's expense. If the veterinarian finds that the animal is showing no clinical signs or symptoms known to be present in active cases of rabies, the animal will be released from quarantine and may be reclaimed by the owner. The veterinarian shall so notify the Animal Control Officer.

H. Any stray animal that bites a person, if its ownership cannot be ascertained within forty-eight (48) hours of the bite, shall be euthanized and the Animal Control Officer shall arrange to have the animal's head sent to a competent laboratory to be examined for rabies.

I. If a veterinarian, during a routine examination, discovers an animal that may have rabies but is unable to make a definite diagnosis, the veterinarian shall have authority to require, at the owner's expense, any procedure or confinement necessary to make an accurate diagnosis.

J. When any animal has been diagnosed by a veterinarian as being rabid or dies during quarantine or rabies observation, the veterinarian shall immediately send the head of such animal to a competent laboratory for pathological examination and shall notify the proper Public Health Official and Animal Control Officer of reports of human contacts and the diagnosis made of the suspected animal.

K. Every owner whose animal is bitten or scratched by an animal showing positive symptoms of rabies or by a wild or carnivorous mammal or bat not available for testing, shall have that animal examined by a veterinarian at the owner's expense. Said animal shall be euthanized, quarantined or held for further observation as requested and the owner shall be responsible for all expenses incurred as a result thereof.

L. Any person who kills or causes to be killed any rabid animal, any animal suspected of having been exposed to rabies, or any animal biting a human, shall immediately report the same to the Animal Control Officer. No person may sell, give away, remove from the County, or otherwise dispose of such animal without written permission of the Animal Control Officer. The carcass of any dead animal exposed to rabies shall, upon demand, be surrendered to the Animal Control Officer. The Animal Control Officer or veterinarian shall direct the disposition of any animal found to be infected with rabies.

M. No person shall fail or refuse to surrender any animal for quarantine or euthanasia as required herein when demand is made by the Shelter Manager. A violation shall be punished pursuant to Article 1, Section 3 of this ordinance.

ARTICLE IV. SEVERABILITY

Each of the provisions of this ordinance is separate and severable and if any provision or any part of any provision hereof is held illegal or invalid, the remaining provisions shall not be affected thereby and shall remain in full force and effect.

SECTIONS 2. NOISY DOGS

No person may allow any dog under his/her control to habitually make loud noises to disturb or annoy persons who are of ordinary sensibilities. This ordinance section does not apply to working farm or ranch dogs while performing that work which is their essential purpose as a working farm or ranch dog, including, but not necessarily limited to, herding livestock or protecting livestock from predators. To qualify for this exception the owner of the animal must provide sufficient evidence to qualify their animal for the exception, and the land on which the animals are working must qualify as "agricultural land" pursuant to South Dakota code.
