Break was taken at 10:13 a.m. and the meeting reconvened at 10:21 a.m.

Public comment was heard from Commissioner Falkenburg who presented a Proclamation of Appreciation to Edie Jenniges, who is retiring from the State's Attorney's office, for her service to the county. Debra Johnston, Sarah Peterson, Rajni Lerman and Mary Helen Pederson spoke of opposition to uranium mining.

Randy Seiler, Highway Superintendent, met with the board and presented fuel quotes as follows:

4/19/2021 Fuel Quotes	7,500 Gal 50/50 blend #1 and #2 Diesel
Nelson's	\$2.64/gallon
Hi-D-Way	No Bid
MG Oil	No Bid

Motion made by Russell, seconded by Allen, to accept the low bid from Nelson's for \$2.64 per gallon for 7,500 gallons of 50/50 Red diesel, for a total amount of \$19,800.00.

Discussion was held on the incoming solar farm that will be along County Road #4A. The board requested Seiler to negotiate for road repairs, as he does with the oil industry and other agreements on county roads. A representative from the solar farm will be coming to a future meeting.

Motion made by Russell, seconded by Allen, to approve travel for Seiler to attend the Summer meeting in Pierre, June 9th and 10<sup>th</sup>, 2021.

Motion made by Greenough, seconded by Allen, to advertise for sealed bids on the Argentine Township Bridge, Project BRO 8024(00)19-1, to be opened June 3, 2021, at 10:20 a.m.

Seiler updated the board that the Tribe had visited about the Chilson Bridge – no response has been given yet. Jerry Heisinger and Ken Martin are retiring. County roads are now being graveled. Jim Angell reported that Old 18 and Rocky Ford Road are looking great. The new road grader should be coming soon; gravel samples have been taken from the Fall River County pit, and Greenough noted how well the LTAP training went.

Vince Logue, Deputy Sheriff, reported that there are 15 males and 4 females in the Fall River County Jail, with 3 males in the Pennington County Jail, for a total of 22 inmates.

Brief discussion was held with Director of Equalization Hayes on a public presentation at the Mueller Center from 3:00 pm to 5:00 p.m. on May 26, 2021 to discuss non-ag sales, and tax options.

Stacey Martin, GIS, met to provide more updates on the Ag Soil table, with a power point presentation of the preliminary report about the Fall River County agriculture land valuation

changes. Martin noted the increased values in the county due to the change of class 4 soils to crop rather than grass. This preliminary report is based on the soil table issued by the SD Department of Revenue in July of 2020 (currently being reviewed). Prior to the new table, 14% of Ag land in the county was designated as crop soil, the new table shows an increase to 42% crop soils. Martin's presentation included original and new weighted averages; the use of weighted ratings to calculate the top dollars on crop and non-crop soils, and the new values using the new weighted rate x acres x the new top dollars. Her presentation further showed the effect of new top dollars, breaking soils into 3 groups and changes to the weighted averages. The power point on the Ag Land Table Report is on youtube.com. under Fall River Commission, SD.

Dustin Ross, Andersen Engineers, met with the board. Motion made by Russell, seconded by Greenough, to approve the following resolution:

Motion made by Russell, seconded by Greenough, to take the County Poor application off the table.

Motion made by Russell, seconded by Greenough, to deny CP#2021-02.

The following people presented budget requests for 2022:

Sandra Swenson, Hot Springs Senior Citizens

Randy 'Uriah' Luallin, Fall River County Historical Museum

Sue Ganje, Auditor, presented the March 31, 2021 General Fund Surplus Analysis for review, noting the need to remove certain designations as they are no longer needed. Motion made by Russell, seconded by Cope, to remove prior designations of \$50,000 for Bridge #24-135113 and \$53,000 for election equipment, and approve additional designations of \$22,500.00 for the rural attorney recruitment program, \$200,000.00 for gravel, and \$196,000.00 for cash balance to be applied in future budgets.

Ganje also spoke on SB 152 – County's issuance of off-sale liquor licenses. Prior to July 1, 2021, action is needed to set the fee for the off-sale liquor licenses and determine how the commission will allocate the 4 available licenses to applicants. Ganje noted that there may be an opportunity to set a License Purchase fee and is working with the State's Attorney on that. Motion made by Russell, seconded by Allen, to table the discussion on SB 152 and issuance of off-sale liquor licenses.

Stacey Martin, GIS, met with the board, to speak of maps sent to counties by the state to determine GIS accuracy. Fall River county was one of 5 counties meeting all the accuracy requirements on the initial test. The state needs 98% accuracy to transition to the Next Gen 911 System. Martin also presented information on the procedure used to name roads, referring to situations where landowners do not agree. In general, GIS determines if it meets rules in place. At certain times, a vote is taken by landowners. Martin questioned the board on procedure when there is disagreement and presented some options on road naming. Those voicing complaints can meet with the board until a different procedure is considered.

Motion made by Allen, seconded by Cope, to enter into executive session, as per SDCL 1-25-2(1) personnel purposes for an exit interview with Edie Jenniges at 11:54 a.m.

Meeting resumed at 12:03 p.m.

A breach shall be treated as discovered by Sub-recipient as of the first day on which such breach is known, or, by exercising reasonable diligence, would have been known, and requires notification to State without unreasonable delay and in no event later than thirty (30) calendar days after discovery of the breach. Such notification will contain the elements required in 45 CFR § 164.410; and
  - f) to comply with all requirements pursuant to the HITECH Act and its implementing regulations, and all additional applicable requirements of the Privacy Rule, including those contained in 45 CFR §§ 164.502(e) and 164.504(e)(1)(ii). Sub-recipient will not directly or indirectly receive remuneration in exchange for any PHI, subject to the exceptions contained in the HITECH Act and without a valid authorization from the applicable individual. - ii. Notwithstanding the prohibitions set forth in this agreement, Sub-recipient may use and disclose PHI if necessary for its proper management and administration or to carry out its legal responsibilities, provided the following requirements are met:
    - a) the disclosure is required by law; or
    - b) reasonable assurances are obtained from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed. Such person shall notify Sub-recipient of any instances of which it is aware in which the confidentiality of the information has been breached.

The Sub-Recipient will maintain effective internal controls in managing the federal award. Liability resulting from noncompliance with licensing and other standards required by Federal, State, County, City or Tribal statute, regulation or ordinance or through the Sub-Recipient's failure to ensure the safety of all individuals served is assumed entirely by the Sub-Recipient.

6. WORK PRODUCT:

Sub-Recipient hereby acknowledges and agrees that all reports, plans, specifications, technical data, drawings, software system programs and documentation, procedures, files, operating instructions and procedures, source code(s) and documentation, including those necessary to upgrade and maintain the software program, state proprietary information, state data, end user data, Personal Health Information as defined in 45 CFR 160.103, and all information contained therein provided to the State by the Sub-Recipient in connection with its performance of service under this Agreement shall belong to and is the property of the State and will not be used in any way by the Sub-Recipient without the written consent of the State.

The Sub-Recipient agrees to hold harmless and indemnify the State of South Dakota, its officers, agents and employees, from and against any and all actions, suits, damages, liability or other proceedings which may arise as the result of performing services hereunder. Sub-Recipient shall furnish copies of insurance policies if requested by the State.

A. Commercial General Liability Insurance:

10. CONFIDENTIALITY OF INFORMATION:

For the purpose of the sub-paragraph, "State Proprietary Information" shall include all information disclosed to the Sub-Recipient by the State. Sub-Recipient acknowledges that it shall have a duty to not disclose any State Proprietary Information to any third person for any reason without the express written permission of a State officer or employee with authority to authorize the disclosure. Sub-Recipient shall not: (i) disclose any State Proprietary Information to any third person unless otherwise specifically allowed under this contract; (ii) make any use of State Proprietary Information except to exercise rights and perform obligations under this contract; (iii) make State Proprietary Information available to any of its employees, officers, agents or consultants except those who have agreed to obligations of confidentiality at least as strict as those set out in this contract and who have a need to know such information. Sub-Recipient is held to the same standard of care in guarding State Proprietary Information as it applies to its own confidential or proprietary information and materials of a similar nature, and no less than holding State Proprietary Information in the strictest confidence. Sub-Recipient shall protect confidentiality of the State's information from the time of receipt to the time that such information is either returned to the State or destroyed to the extent that it cannot be recalled or reproduced. State Proprietary Information shall not include information that (i) was in the public domain at the time it was disclosed to Sub-Recipient; (ii) was known to Sub-Recipient without restriction at the time of disclosure from the State; (iii) that is disclosed with the prior written approval of State's officers or employees having authority to disclose such information; (iv) was independently developed by Sub-Recipient without the benefit or influence of the State's information; (v) becomes known to Sub-Recipient without restriction from a source not connected to the State of South Dakota. The parties mutually agree that neither of them shall disclose the contents of the agreement except as required by applicable law or as necessary to carry out the terms of the agreement or to enforce that party's rights under this agreement. Sub-Recipient acknowledges that the State and its agencies are public entities and thus are bound by South Dakota open meetings and open records laws. It is therefore not a breach of this agreement for the State to take any action that the State reasonably believes is necessary to comply with the South Dakota open records or open meetings laws, including but not limited to posting this Agreement on the State's website. If work assignment performed in the course of this Agreement required security requirements or clearance, the Sub-Recipient will be required to undergo investigation.

Sub-recipient acknowledges that the State shares general information, including performance information, about Sub-recipient among and between other State agencies upon request of such agencies for the purpose of making determinations of the risk involved with potential, subsequent grant awards and for other purposes. Sub-recipient expressly consents and agrees to such uses by the State.

11. FEDERAL AND STATE LAWS:

Sub-Recipient agrees that it will comply with all federal and state laws, rules, and regulations that may apply to the provision of services pursuant to this contract, including the Americans with Disabilities Act (ADA) of 1990, 42 U.S.C. §§ 12101-12213, and any amendment thereto, Section 306 of the Clean Air Act, and Section 508 of the Clean Water Act. 12. REPORTING OF PERSONAL INJURIES AND/OR PROPERTY DAMAGE:

Sub-Recipient agrees to report promptly to State any event encountered in the course of performance of this contract which results in injury to the person or property of third parties, or which may otherwise subject Sub-Recipient or State to liability. Reporting to State under this section does not satisfy Sub-Recipient's obligation to report any event to law enforcement or other entities as required by law.

13. FORCE MAJEURE:

Neither Sub-Recipient nor State shall be liable to the other for any delay in, or failure of performance of, any covenant or promise contained in this contract, nor shall any delay or failure constitute default or give rise to any liability for damages if, and only to the extent that, such delay or failure is caused by "force majeure". As used in this contract, "force majeure" means acts of God, acts of the public enemy, acts of the State and any governmental entity in its sovereign capacity, fires, floods, epidemics, quarantine restrictions, strikes or other labor disputes, freight embargoes, or unusually severe weather.

14. CONTRACT ORIGINAL AND COPIES:

An original of this contract will be retained by the State Auditor's Office. A photocopy will be on file with the South Dakota Department of Health and a second original will be sent to Sub-Recipient.

RE: 2022 Budget Request

Dear Commissioners,

The Edgemont YMCA is a non-profit organization that has been serving the community of Edgemont for 16 years. The Edgemont YMCA began thanks to a dedicated group of parents who saw childcare, sports programs, and other youth outreach happening in other communities such as Custer through their YMCA and wanted the same opportunities for their children in Edgemont.

The group of parents contacted Roger Gallimore with the YMCA of Rapid City to find out how the community of Edgemont could start a YMCA. Mr. Gallimore advised them they would need to have a board of 30 members and a space available to run programs. Action was immediately taken; partnerships were built with the Edgemont School and the City of Edgemont and a board of over 30 members was put together in a very short amount of time.

While the Edgemont YMCA operates under the umbrella of the YMCA of Rapid City, we are responsible for our own budget, finding financial resources and partners, and are only offered assistance through Rapid City via human resources, development, and payroll (which we pay a monthly fee for).

Since our opening in 2005, we have been driven by our mission: To put Christian principles into practice through programs that build healthy spirit, mind, and body for all. Up to now we have been successful in fulfilling our mission on the funds we have been able to raise through programs, YMCA memberships, grants, and community partnerships. Unfortunately, some of our funding has been cut while at the same time prices for food and supplies continues to rise. We are also finding it difficult to pay excellent employees a competitive wage to retain them.

The impact of the Edgemont YMCA on our community is huge! Annually we reach up to 180 children through our programs which include afterschool care, youth sports, summer day camp, and summer swimming lessons.

Our community partnerships are a key part of our success in Edgemont and we would not be able to operate without them. Through our partnership with the Edgemont School, we have a space to hold our afterschool program. We offer afterschool care for the 38 weeks of school from 3:40-5:45pm so parents who work have a safe place for their child to go until they are done working for the day. Everyday students receive a nutritious meal, homework help with a tutor, and participate in a daily activity – art, STEM, cultural

awareness, or character development. They also have ample time to play outside with their friends and just be a kid!

We are also able to operate our Summer Day Camp 5 weeks during the summer. During summer day camp, we strive to combat summer slide; a term used to describe the impact summer vacation has on student learning, especially in early elementary grades and more significantly in reading skills. We accomplish this with daily educational activities, weekly themes and enhanced learning field trips out of Edgemont. Children are provided breakfast, lunch, and an afternoon snack. Weekly walks are taken to the public library, city swimming pool, and city park. Special guests are invited in from local businesses to enhance learning such as a veterinarian bringing in an ultrasound machine to show the students how they do part of their job.

Finally, the Edgemont School also allows us to use their gymnasium for Midget Mogul Basketball, On Stage Dance, and cheerleading. Our members utilize the cardio room and weight rooms which are housed in the school building. Our office building is located in the former school administrative building and we utilize their busses for our field trips.

Through our partnership with the City of Edgemont, we use the city soccer and baseball fields in the spring, summer, and fall for our sports programs. We also receive funds to manage and operate the city swimming pool where during the summer we see anywhere from 10 up to 50 patrons a day for open, family, and teen swim times.

What does participation at the Edgemont YMCA cost for these programs? Our afterschool program and summer day camp are offered free of charge through our 21<sup>st</sup> Century Community Learning Centers grant which covers the cost of most supplies and salaries for up to 3 staff members. Sports programs and swimming lessons have a fee of \$30 for YMCA members and \$40 for program participants who are not YMCA members. A child is never turned away due to a families' inability to pay the fee.

Where do our operational funds come from? The biggest portion of funds comes to us through grants from 21<sup>st</sup> CCLC as stated above, the United Way, Y-USA, and the South Dakota Food Program. We also hold an annual campaign to request donations from local individuals and businesses which are used as scholarships for children to have a YMCA membership and participate in our programs. Our next source of income is through the program fees for sports, swimming lessons, and pool admission. The third source is our YMCA memberships with an annual fee schedule of \$96 for seniors age 60+, \$108 for youth ages 4 to 17, \$204 for a single adult ages 18-49, and \$348 for a family. All memberships include use of the city swimming pool during the summer months, access to the weight room and cardio room, receive member discounts on programs, and can access any YMCA nationwide who participates in the AWAY program.

In order to keep the above fees for sports programs and memberships affordable, we are in need of additional funding. With the United Way restructuring how they are allocating funds, this year we are receiving only a 1/3 of our previous funds. As previously stated, the cost of goods, insurance, and salaries are rising and unfortunately we are unable to

close the gap. For these reasons we are requesting a larger allotment from the Fall River County Commissioners to continue our mission and operations in Edgemont.

It gets harder and harder to cover expenses each year and help from the county commissioners is more critical than ever. We are requesting \$10,000 from Fall River County to help us continue operations to provide the community of Edgemont with quality programming and support.

Rounds Four and Five**

**Application Deadlines:  
*January 29, 2021 – 5:00 PM &  
June 25, 2021 – 5:00 PM***

This program is funded through the South Dakota  
Volkswagen (VW) Environmental Mitigation Trust

## **Section 1 – Introduction**

The primary goal of South Dakota's VW Environmental Mitigation Trust Program is to facilitate the improvement and protection of the ambient air quality throughout South Dakota. The South Dakota Department of Environment and Natural Resources (DENR) administers the program. The program provides rebates to help purchase new class 4-8 local freight trucks that replace older in-use higher emitting diesel trucks to reduce diesel particulate matter and smog-forming emissions.

Program information will be posted on the VW Mitigation Trust Program Truck website at <https://denr.sd.gov/des/aq/aaVWtrucks.aspx>. For additional information, please contact: Barb Regynski at 1-800-GET-DENR (1-800-438-3367) or [barb.regynski@state.sd.us](mailto:barb.regynski@state.sd.us).

## **Section 2 – Background**

In 2016, EPA and California filed a lawsuit against Volkswagen for installing a system that allowed nitrogen oxide pollution, also referred to as NOx, to exceed levels allowed by the Clean Air Act. As part of the court settlement, Volkswagen funded an Environmental Mitigation Trust to be used to offset the excess pollution emitted by the non-compliant vehicles. South Dakota's Allocation from the trust is \$8,125,000.

## **Section 3 - Eligible Participants**

South Dakota state and local governmental agencies are eligible to participate.

## **Section 4 - Eligible Projects**

The eligibility criteria for **existing trucks** to be replaced and receive a rebate are as follows:

- Class 4-8 diesel-powered local freight trucks (Gross Vehicle Weight Rating 14,001 pounds and greater) with engine model years 1992 through 2009. The replacement truck must be of the same type and class.
- The truck being replaced must be scrapped or rendered permanently disabled within ninety (90) days of the replacement. Evidence of appropriate disposal (including colored digital photos of the engine tag showing serial number, engine family number, and engine model year, vehicle identification number (VIN), and of the destroyed engine block and cut frame rails or other structural components) is required for rebate to be made. Drilling a three inch hole in the engine block and disabling the chassis is the preferred scrapping method. Equipment and vehicle components that are not part of the engine or chassis may be salvaged from the unit being replaced (e.g. plow blades, shovels, seats, tires, etc.). If scrapped or salvaged vehicles/parts are sold, the income may be used to meet the cost-sharing or matching requirement of the award, including any mandatory or voluntary cost-share. Therefore, the amount of the award remains the same.

The eligibility criteria for **new replacement** trucks are as follows:

- Diesel, alternate fueled, or all-electric class 4-8 local freight trucks (Gross Vehicle Weight Rating 14,001 pounds and greater) engine model year one year prior to the replacement or newer. The replacement must be of the same type and class.
- Total rebate per replacement will be up to 50% of the purchase price of a truck with an engine certified to meet EPA emission standards, 60% of the purchase price of a truck with an engine certified to meet CARB's Low-NOx standards, or 70% of the purchase price of an all-electric truck.
- The applicant should receive the new truck by **June 1, 2022** for round four and by **December 1, 2022** for round five.

## **Section 5 – Funding Amounts**

During rounds four and five there will be approximately \$900,000 of Volkswagen trust funds available for replacing trucks. Approximately half will be available for round four and any funds remaining will carry over to round five.

## **Section 6 – Project Awards**

Ranking will be based on a combination of the age of the diesel engine being replaced, cost of the replacement vehicle, and nitrogen oxide reductions. To ensure improvement and protection of the ambient air quality throughout South Dakota is achieved, each applicant will receive one replacement vehicle before an applicant receives a second replacement vehicle, and so on.

Selected applicants will enter into a written agreement with DENR and will submit a copy of their purchase order. Rebates will be issued upon submittal of a Request for Reimbursement Form, evidence of final vehicle purchase price, a Certificate of Disposal Form, photographic evidence of disposal, and if requesting the 60% rebate, a copy of the engine certificate showing it meets CARB's Low-NOx Standards.

1. Program applications are attached to this document and are also available from the website at <https://denr.sd.gov/des/aq/aaVWtrucks.aspx>.
2. Applications must be submitted to DENR by 5:00 PM, January 29, 2021 and/or 5:00 PM, June 25, 2021. Applications are to be submitted by email to [barb.regynski@state.sd.us](mailto:barb.regynski@state.sd.us) or by mail to:  
VW Rebate Program  
SD DENR – AQ Program  
523 E Capitol  
Pierre, SD 57501
3. DENR will evaluate applications.
4. DENR will post selection list.
5. Selected applicants will be emailed rebate agreements.

## Section 9 – Program Requirements

Successful project applicants must enter into an agreement with DENR setting forth specific performance criteria to ensure compliance with statutory and audit requirements. Agreement preparation will begin immediately upon DENR selection of a project. The agreement will include further details on complying with program requirements. All services or work carried out under an agreement awarded as a result of this call for projects must be completed within the scope, time frames, and funding limitations specified by the agreement. Upon signature and execution of the agreement by DENR, a copy of the executed agreement will be returned to the applicant, at which time the project will be considered awarded.

### **Replacement Truck Requirements**

- The applicant must provide DENR with an original Internal Revenue Service (IRS) Request for Taxpayer Identification Number and Certification Form W-9. A copy of the IRS Form W-9 can be downloaded at [www.irs.gov](http://www.irs.gov) or by calling 1-800-829-3676.
- Purchase of new trucks may not occur prior to both parties signing the agreement. Rebates will be made on a reimbursement basis for eligible expenses incurred and paid by the recipient. A cost may not be considered incurred until the replacement truck has been received and accepted by the recipient.
- The applicant must provide DENR with a copy of the Division of Motor Vehicles registration or title for the truck being replaced.
- The applicant must submit a copy of the Purchase Order to DENR.
- The applicant must insure that the replaced truck is permanently disabled or scrapped and maintain documentation on how the replaced truck was permanently disabled or scrapped.
- Applicant submits a Request for Reimbursement Form, evidence of final truck purchase price, Certificate of Disposal Form, photographic evidence of disposal and if requesting the 60% rebate, a copy of the engine certificate showing it meets CARB's Low-NOx Standards. DENR will review the information for compliance with all grant requirements.
- Rebate will be issued upon verification (documentation and/or DENR staff site visit).
- The applicant agrees that program criteria and requirements may be reviewed, as new information becomes available, and can be revised at the discretion of DENR.
- DENR maintains the right to monitor the project periodically.
- The applicant must maintain ownership of the replacement truck for three years after receipt of the rebate.

## **Section 10 - Verification Procedures**

Any applicant that receives VW Truck Replacement Rebate Program funds may be subject to verification of each program or project funded. The verification may be conducted by staff from DENR. Rebate documentation, records, and referenced materials must be available for review during monitoring visits.

Upon the completion of verification, DENR will determine if the funds were used for the approved project and make the verification available to the applicant and to the public upon request.

If DENR determines that the funds were expended in a manner contrary to law or not in accordance with provisions, DENR will notify the applicant of the determination, and may, at its discretion, seek re-payment of funds misappropriated, spent for non-eligible activities, or otherwise inappropriately expended.

**Subject:** Scrapping Old Truck

Good morning Randy,

Thank you for the call this morning. As mentioned we could definitely scrap the Old truck you were talking about. We are currently paying \$100/ton for Unprepared which is what we would consider the truck. Once the truck came in here we would use our mobile shear and cut it up so we could ship the scrap iron out. We would charge .15/pound for the tires since we have to take them to the landfill for disposal. The cab of the truck would most likely end up getting baled and go to our Shredder in Billings and from there would get shipped to the end mill. The rest of the truck would be cut into 36" X 18" pieces and shipped off to one of the steel mills in Indiana. If you have any other questions please let me know.

Thank you,

Good morning Marne. Do you know the codified law on how a county can set a license fee for the new off-sale. I know the application and renewal fee will be between \$300 - 500, but looking for the law that allows for a license purchase fee. Can you help me with this? Thanks, Sue

Re: 2022 Budget Request

Dear County Commissioners,

Greetings once again to all of you who faithfully serve our county and citizens! This has been a trying time for many of us, especially the elderly and disabled who count on nutritious hot meals, whether in a congregate setting at the Springs Senior Center or other gathering places, such as Brookside Apartments, as well as delivery to their homes in or near Hot Springs! The Springs Senior Center just recently reopened for congregate dining, but all other clients served by the program are being delivered to them for the foreseeable future.

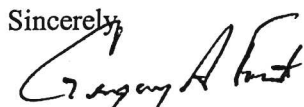

All cooked items on the menu, which rotates every six (6) weeks, are prepared in the kitchens of the Meals On Wheels Program in Rapid City and transported in steam-table pans in a heated warming "box" to the Springs Senior Center Monday through Friday. Pre-packaged items not needing warming prior to delivery to clients are brought as often as needed and stored in refrigerated or freezer compartments until needed, per the menu rotation schedule. The individual hot meals are portioned into lidded styrofoam containers and kept in insulated boxes until delivered to each client. The current manager of the Hot Springs Elderly Meals Program has completed ServSafe certification and trains all other employees and delivery persons in proper handling of the meals; copies of her certification documents are enclosed.

The meals currently being delivered to Oelrichs clients are a combination of the daily hot meal and "freezer" meals, similar to grocery store frozen meals, but prepared, sealed and frozen in the Rapid City kitchen. Clients may prepare these meals for eating at their leisure in their homes and received similar nutrition benefits as the other clients in Hot Springs. We will expand this service to Oelrichs and Buffalo Gap clients as needed and it could result in daily trips to both communities.

We are currently serving an average of 125 meals per day in the City of Hot Springs, with another 8 meals per day down Fall River Road and Highway 79 to the Angostura Den area. We also take a total of 12 frozen meals once a week to two clients in Oelrichs and a couple of hot meals twice a week to Buffalo Gap (which is outside of Fall River County, but the closest resource for those folks). The average weekly total of meals mentioned above is now **681!**

The 2021 grant for this program is \$2,800.00; we submit to you a request for an increase to \$3,800.00 based on expansion of services into Oelrichs and Buffalo Gap. I will attend your meeting for further discussion of our request.

Sincerely,

Gregory A. Foust

## Preliminary Report

Data used based on updated soil table issued by Department of Revenue to Fall River County in May 2021; currently pending review.

### Fall River County Ag Land Valuation Change

This report describes the changes to value for Fall River County due to the updated new soil table issued May 2021.

The original new table for Fall River County was issued in July 2020 and will be referred to in this document as the version 1 table. The version 1 table moved all but one of the Class 4 soils from a highest and best use category of non-crop to cropland. The updated table was received by Fall River County in May 2021. This table will be referred to as the version 2 table.

The Department of Revenue has stated that it was not the intention of the new tables to create this major shift in value. They are advising all counties to look at their new tables. They have also stated that they do not expect any county to apply the new table this year.

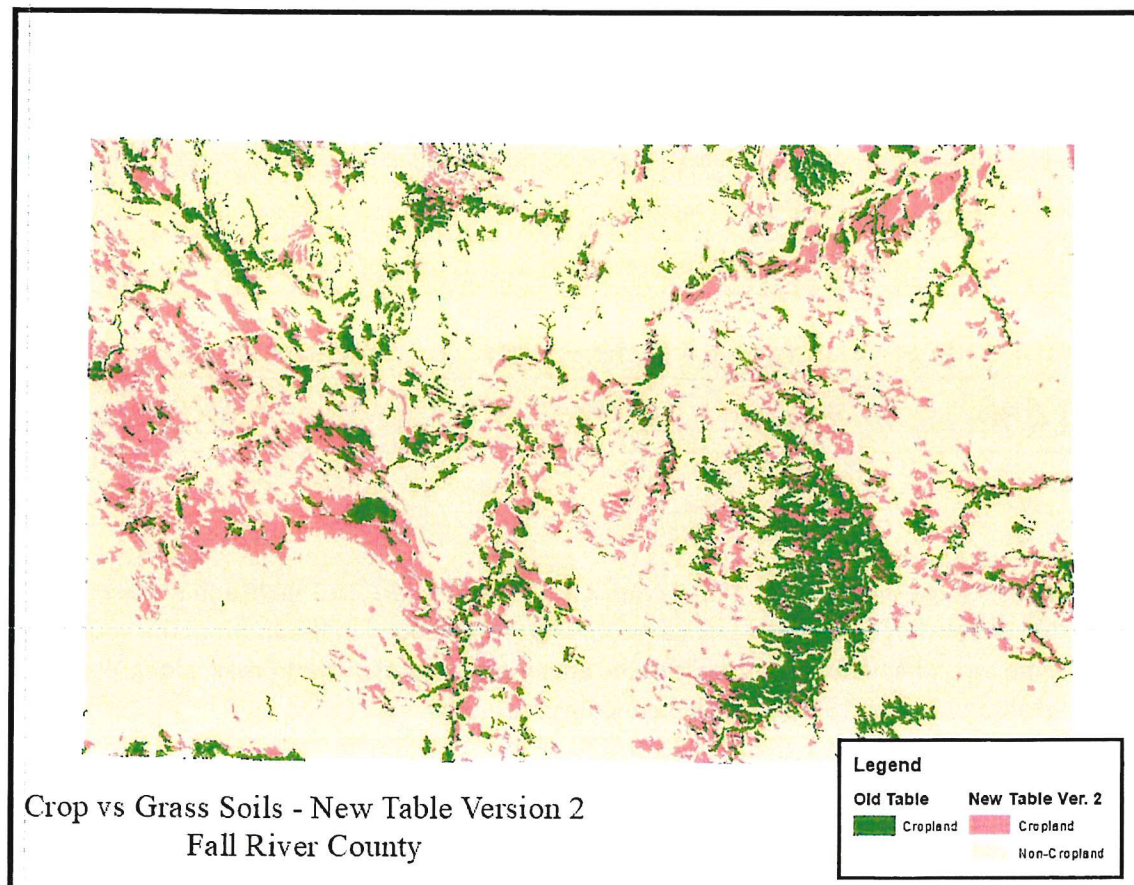

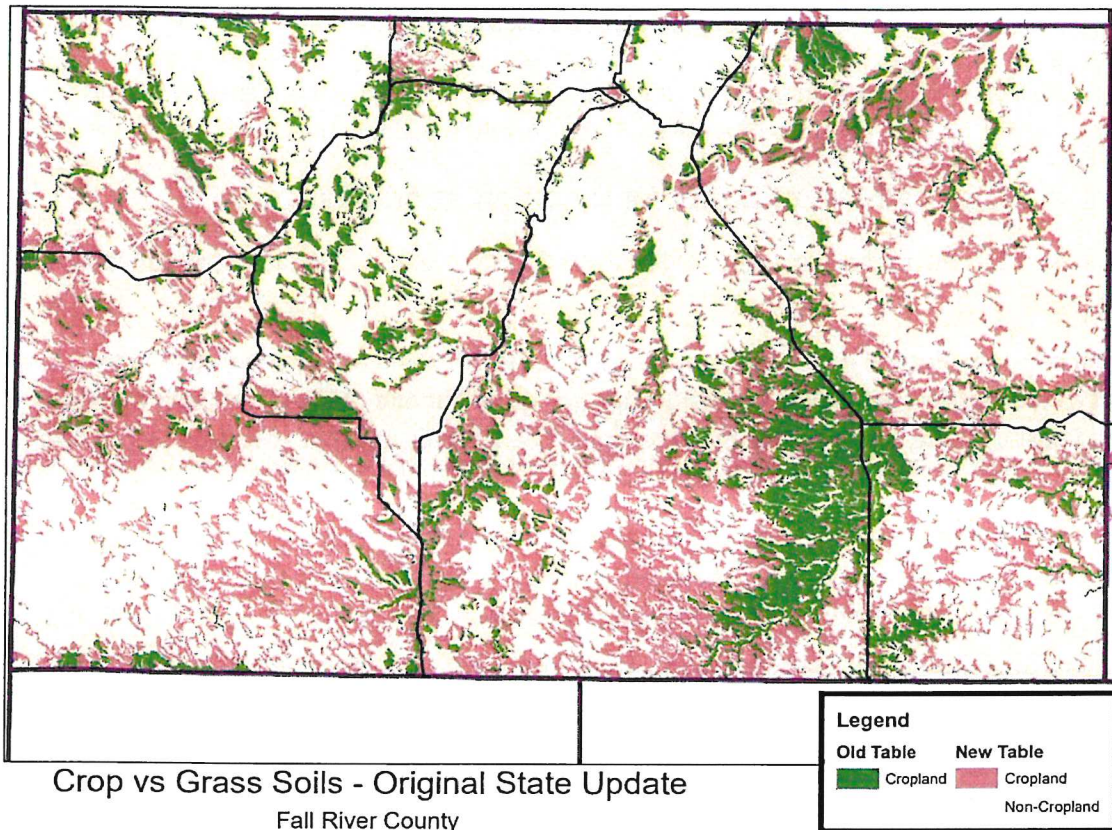

That said the tables and graphs below show what the value increase would be if the version 2 table was applied as it currently exists. The reader should understand that these numbers are not final, review of these tables is still ongoing. The purpose of this report is to show the progress made thus far in fixing these tables.

The version 2 table changed several the soils back to non-crop. Not every soil changed was located under agricultural land. The soils that changed back to non-crop which are located in agricultural areas are: AbA, AbB, Ga, NuC, P012B, P282C, P358B, PeB, Q0602A, and St. The soil named 'PeB' makes up 10% of the county and therefore had a significant effect on the value difference between table versions 1 and 2.

County Ag Land Designated as Crop Soil		
Original Table	New Table – Ver. 1	New Table – Ver. 2
14%	42%	28%

The maps on the next page show the additional crop soils due to the version 1 table and the version 2 table. The version 2 table has corrected a large amount of the soils added in the south of the county. There is still a large area of additional crop soils in the Edgemont area, along Hat Creek, along Horsehead Creek, in Minnekahta Valley, and along the Cheyenne River.

	Average Land Value	Table Used	Weighted Rating	Top Dollar
Crop Soil	\$ 845.35	Old	0.892	\$ 947.86
		New	0.698	\$ 1,210.16
		New – After Highest & Best Change	<b>0.665</b>	<b>\$ 1,270.97</b>
Non-crop Soil	\$ 131.26	Old	0.395	\$ 332.00
		New	0.512	\$ 256.20
		New – After Highest & Best Change	<b>0.509</b>	<b>\$ 257.92</b>

To see the effect of these new top dollars we will break the soils into three groups:

- Group 1: Soils that were crop soils on the old table and remained crop soils
- Group 2: Soils that were non-crop soils on the old table and are now crop soils
- Group 3: Soils that were non-crop soils on the old table and remained non-crop soils

### Group 1:

Original Crop Soil Group	Top Dollar	Value
New	\$1,210.16	\$ 90,998,546
New – Class 4 move	\$1,270.97	\$95,570,798

The original crop soils group has increase by \$4.5 million due to the change in top dollar that resulted from the moving of soils from non-crop to crop land. [107,646 acres]

### Group 2:

Soils that changed highest & best Category	Top Dollar	Value
New as Non-crop	\$256.20	\$ 15,933,637
New as Crop	\$1,210.16	\$ 90,296,377
New with Move	\$1,270.97	\$ 94,833,348

If the soils had remained non-crop their value in the new table would have been \$16 million. Instead, they were moved to crop, this would have resulted in a value of \$90 million. However, their own move caused an increase in the crop top dollar that resulted in an additional increase of \$4 million. So, the overall increase for these moved soils is \$79 million. [117,591 acres]

### Group 3:

Remaining Non-Crop Soil Group	Top Dollar	Value
New	\$256.2	\$ 74,223,645
New with Move	\$257.92	\$ 74,722,281

The non-crop soils that remained non-crop increased \$0.5 million due to the change in top dollar resulting from the moving of soils from non-crop to crop land. [569,269 acres]

The majority of this increase is seen in the 14% of the county that had soils that changed from non-crop to crop.

	Value Increase
Group 1	\$4.5 million
Group 2	\$79 million
Group 3	\$0.5 million

State Expected Value for Fall River County	
2021	Version 2 Table
\$ 181 Million	\$ 265 Million

The version 1 table had a State expected value for Fall River County of \$342 million. The version 2 table has cut that increase almost in half. It is still, however, a sizable increase that is larger than the increase we have taken over the last decade.

	Fall River County Ag Land Value	
<b>2010</b>	\$ 102.3 million	
<b>2020</b>	\$ 173.1 million (\$181 before adjustments)	Increase of \$70.8 million over 10 years
<b>Version 2 table</b>	\$ 257.0 million (\$265 before adjustments)	Increase of \$83.9 million

Below is a graph of Fall River County's increases since 2010 with the version 2 table increase.

## **Black Hills Regional Multiple Use Coalition- April 23, 2021**

The April 2021 BHRMUC meeting was called to order at 4:10 pm at the Holiday Inn in Spearfish, SD. Those in attendance were Dave Kennedy, Jean Kennedy, Eric Jennings, Druse Kellogg, Frank Bloom, Larry Mann, Bill Coburn, Don Hausle, Randy Deibert, Butch Oien, and Matt Lottes.

---

Chairman Hausle shared the meeting will follow Roberts Rule of Order and Vice Chair Coburn will act as Parliamentarian.

Jennings Moved, Oien Second to approve minutes of prior meeting. Motion Carried.

Deibert Moved, Coburn Second to approve Agenda. Motion Carried.

Motion Coburn, Second Kellogg to approve Financial Report. Motion Carried.

A \$500 donation to the Halverson's was discussed again. Copies of the BHRMUC By-Laws were passed out. Motion for the group to donate \$500 to the Halverson's in response to the loss of their home to fire. Butch 2<sup>nd</sup>'s the motion. Motion carried.

---

OHVs:

Randy spoke on OHV working group developments (Action Committee is in place). Now a strict measuring tool in place to determine vehicle widths. A manufacturer has offered side-by-sides to the Forest Service (FS) for patrols. All in Action Committee agreed to "unified signage and unified maps." FS said they did not want to lead the Steering Committee...Black Hill Council looking to head the Steering Committee.

Bill addressed OHVs as a FS problem to fix and that the Forest Plan revision should include OHV reform.

Discussion of the need for a policy-making group, but would need buy-in and assurance from the FS that they'd listen and act. Raising congressional, county, and local awareness could encourage FS buy-in. To encourage awareness and support, Frank makes motion for the coalition to write a letter on taking lead to form policy-making group. Executive members will be responsible for drafting letter, and Randy will inform Black Hills Council of our intent. Motion carries.

---

Discussion of article from Stewards of Liberty on Biden's 30x30 executive order. 30% of Federal lands to be set aside for preservation...overall the order seems very vague and lacks detail.

Round Robin:

Randy spoke on how SD Dept of Natural Resources and Dept of Agriculture have now merged.

Eric spoke on recent fires. The Divide Fire near Bison, SD and the Windy Fire near Lemmon. Very dry conditions.

Meeting adjourned at 5:45 pm.

Minutes by Matt Lottes

Good morning. For those of you who don't know me my name is Mackenzie Swanson. First, I want to thank all of you for coming today. I believe it is important for us to exercise our right to meet with one another and give voice to our opinions. Secondly, I want to thank Cori Schmidt who spent a lot of time and energy organizing this. She's a prime example of how our community cares for one another.

My family moved to the Hills when I was in second grade. I lived in the little brown house right next to the stack yard. I have memories of the sweet smell of wood fresh out of the kiln, of making mud pies but stopping to wave as the water truck and fork lifts went by, and of the American Flag being painted on the water tank after the tragedy of 9/11. The timber industry has long been part of my life and the life of Hill City. It is the timber industry that taught me how to care for the forest and the importance of properly maintaining it.

Mainly we are here to show our support for the workers that are being affected by this shut down. The National Forest Service is proposing to cut the amount of logs permitted for harvest by 50-60%, forcing the Hill City Sawmill to close its doors. 120 jobs will be lost plus the 12 contracted logging crews. These men and women are essential parts of our community; their children are enrolled in our schools, they attend our churches and social clubs, and fill their gas tanks and grocery carts locally. They are our friends and families.

The sawmill is one of the few year round employers of our town. In the lean winter months it donates to our charities, events, provides scholarships, and bolsters our economy. This is a family company that invests heavily in families. If you have lived in the area for any length of time you have seen the fruits of their generosity; they support 4H Clubs, Youth Programs of all kinds, the Boys & Girls Club, The Hill City Arts Council, and have met the needs of individuals, just to name a few.

The affects of the sawmill closing will be far reaching. Other businesses throughout our area will be impacted: Dakota Panel, Missuola Saws, Menards, and The Black Hills Stockshow, to name only a handful. Various forest products companies in the Black Hills employ more than 1400 people. Annual salaries and contractor payments exceed \$120 million. This is not just about one mill in one little town.

The forest needs the sawmill as much as our community needs it. We simply need to look to history to know just how essential the timber industry is. The very first federal timber sale in the United States happened right here in the Black Hills in 1899. 25 years after logging on the sale site commenced, the standing volume of ponderosa pine increased in volume from 482 board feet per acre to 2,611 board feet per acre. You heard it right- the available timber increased five fold. In 1968 the two-billionth board foot of the area was harvested. Since the first cutting in 1899 it had been successfully logged four times. In 1968 it was said that "with harvest of the two-billionth board foot, the Black Hills will have produced as much or more wood than there was estimated to have been standing when logging started in 1899." The first documented reports of the Mountain Pine Beetle were published in 1902 while a beetle epidemic ravaged our forests. From those first reports and the decades of research that followed, we've learned that the mountain pine beetle returns every 20-30 years, bringing with them disease, and thrives in dense forests with the capacity to kill millions of acres worth of trees. Thinned areas have proven time and time again to be more resilient against the attacks, and by keeping ahead of the bug, we can slow their progression and reduce the amount of trees killed. This is done by logging.

About 20 years ago the Jasper Fire ravaged over 83,000 acres according to the National Parks Service. According to a recent newspaper article following the story of our sawmill, the acreage burned was approximately 250,000 (though that is the only place that number was reported). Perhaps not so coincidentally the Forest Service didn't sell any Black Hills timber that year. It can be argued that increased logging in the area could have lessened the devastation. To this day the land is nearly sterile.

Properly logged areas reduce fuel for wildfires and make it easier for firefighters to do their jobs. Areas that had been logged around the same time as the Jasper Fire are healthy, abundant in wildlife, and are well on their way to being logged again. The forest recovers from logging astronomically faster than it does from wildfires, not to mention that logging is far more selective. Logging can even be viewed like farming. The process essentially tills up the ground and plants the seeds, giving the seeds a headstart in the growing process. Ponderosa pine is one of the few tree species used for lumber that regenerates easily without an intentional replanting.

Without logging we run a higher risk of bug infestation, disease, and fire epidemics. Tax paying citizens deserve to know how the National Forest plans on protecting their investment. How, and when, exactly will NFS maintain our forest without the help of the men and women of the sawmill that have been doing it for so long.

For those of you who don't know, the United States Department of Agriculture is the head of the National Forest Service. According to the USDA's Wildland Fire Division, Ponderosa pine is to be thinned to create an average of 20 feet between tree crowns. It is easy to see that the NFS isn't taking the advice of the USDA. Part of the problem is that the NFS and people speaking for it have given conflicting information over the years, and even over the last few weeks. When claims of years of mismanaged over-cutting bombard the media, keep in mind that there is not a tree cut on public land that doesn't first have the blessing of the National Forest.

I don't have any special degrees in environmental studies or forestry. I am not claiming to have all the answers, but here is what I do know: as I drive and hike through the hills I can see areas that desperately need logged. Here's what else I know: Each and every person connected to this mill cares deeply about a healthy forest and the community they live in. They have no interest in depleting our natural resources, and every interest in doing what is best for the Black Hills and one another. We believe that continued logging, and keeping our mills open, is in fact what's best.

Thank you.
